MEDOCAL is a brand of PYTHEVS MEDICAL

PYTHEVS
MEDICAL
PRIVATE HEALTHCARE SOLUTIONS
Partnering for Better Care.

PYTHEVS MEDICAL

Who we are

Solutions for private healthcare

Pythevs Medical serves the private healthcare sector, focusing on major organisations with high-volume and recurring procurement needs.

We work with private hospitals, clinics, laboratories, pharmaceutical companies and pharmacy associations. We do more than sell a product. We manage research, manufacturer selection, specification development, documentation, production, stock planning and delivery.

WE SERVE

- Private hospitals
- Clinics
- Medical laboratories
- Pharmaceutical companies
- Pharmacy associations

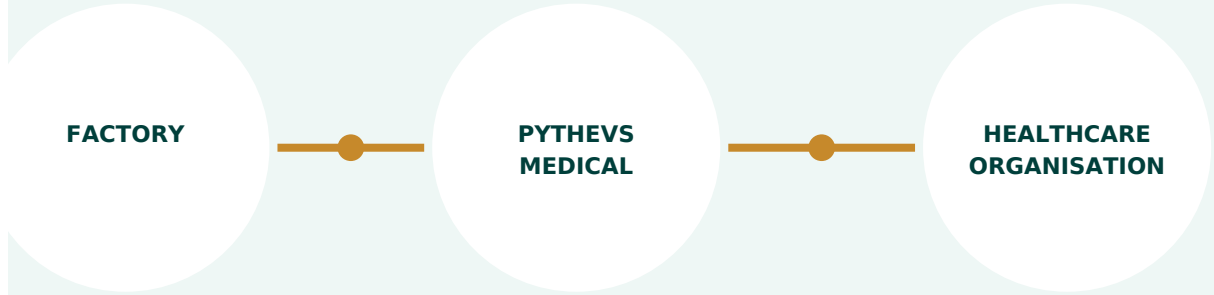

Purposeful innovation. Professional execution.

We study each need, refine the specifications and organise execution with consistency. Every product and every delivery demonstrate the standard of our partnership.

THE MEDOCAL MODEL

Direct access to production

Closer to the customer's real needs

MEDOCAL reduces unnecessary commercial intermediaries and brings the factory's production capabilities as close as possible to the end healthcare organisation.

- Higher and more consistent quality
- Enhanced safety and control
- Simpler, better-organised processes
- Direct communication with the manufacturer
- Better planning and availability
- Lower total cost and reduced administrative burden

We improve quality, safety and processes.

We reduce costs for the benefit of the customer.

OUR BRAND PROMISE

Quality. Economy. Confidence.

1 QUALITY

Selected products, controlled specifications, technical documentation and full traceability.

2 ECONOMY

Direct cooperation with production, fewer commercial links and better cost control.

3 CONFIDENCE

Production planning, safety stock and organised support through one reliable point of contact.

Peace of mind for management. Value across the organisation.

Management, doctors, nurses, procurement, warehouse and quality teams work through one organised solution. One partner coordinates the process and returns with the solution.

With MEDOCAL, you can have peace of mind.

PRODUCT CO-DEVELOPMENT

From need to final product

The customer actively shapes the solution

1 Need

Define the use, the problem and the desired improvement.

2 Research

Compare the market and select suitable manufacturers.

3 Sample

Produce and deliver a sample to the agreed requirements.

4 Evaluation

Testing by the relevant professionals and collection of feedback.

5 Refinement

Repeat adjustments until the final configuration is approved.

6 Standardisation

Lock the specification, MEDOCAL code and organised production.

We do not ask customers to adapt to the product.

We adapt the product to the real need.

QUALITY AND COMPLIANCE

Control at every stage

Manufacturer, batch and distribution assessment

MANUFACTURER APPROVAL

- ISO and certification-body review
- CE and regulatory documentation
- Notified Body where required
- Batch testing by Notified Bodies in the country of manufacture
- Capacity, controls and site visits

CONTROL AND TRACEABILITY

- Reference samples for each batch
- Production and quality-control records
- Batch and delivery identification
- Deviation-investigation procedure
- Updates and corrective actions

Quality does not end with the first sample.

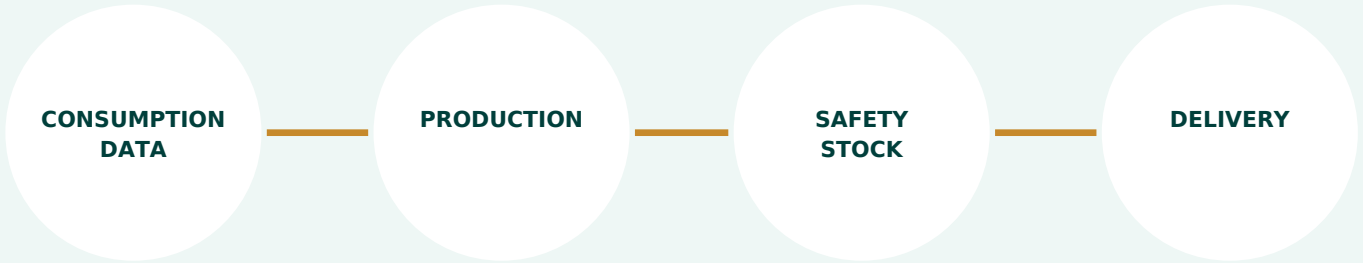

For every product, we assess whether the manufacturer can consistently meet technical, quality and regulatory requirements. If an issue arises, the batch-control and full-traceability process is activated immediately, in direct cooperation with the European Authorised Representative (EU Representative) and the manufacturer, until the issue is fully resolved.

We know where the product came from, when it was made and where it was delivered.

SUPPLY CHAIN

Planning and continuity of supply

The right product, quantity and timing

We discuss annual requirements with the customer, translate them into a production plan, and maintain safety stock in Cyprus and at our warehousing facilities in China.

MIXED CONTAINERS

We combine different product categories in organised shipments and deliver close to the customer or to our own facilities.

DIGITAL INTEGRATION GOAL

Future integration of customer, Pythevs Medical, manufacturer and forwarder systems for automated replenishment and updates.

GLOBAL VISION

From Cyprus to the world

Partnerships with leading hospital groups

MEDOCAL was designed for international growth.

Starting from Cyprus, our goal is the global market. We are building proven partnerships and gradually expanding the MEDOCAL model to hospital organisations across Europe, the Middle East and worldwide.

A product that begins with a real need and creates value for the entire market.

Our philosophy

Your need. Our solution. Your value.

We listen to the customer's real need and adapt the product, specifications and processes to deliver a safe, reliable and cost-effective solution. Every improvement ultimately benefits the customer.

COMPLETE PORTFOLIO

Product categories

Nine sections for everyday and specialised healthcare needs

01 **Surgical Gowns, Drapes & Packs**

Surgical gowns, drapes, sets and procedure packs

02 **Specialty Medical Devices**

Central venous access, dialysis and specialised solutions

03 **Respiratory & Anaesthesia**

Airway, oxygen therapy, nebulisation and anaesthesia

04 **Diagnostic & Monitoring**

Diagnostic and patient-monitoring consumables

05 **Urology, Drainage & Enteral Care**

Urology, drainage, feeding and gastroenterology

06 **Blood Collection & Management**

Blood collection, administration, transfusion and management

07 **Wound Care & Dressings**

Gauze, dressings, cotton, bandages and tapes

08 **Patient Care & Protection**

Protection, infection control and patient-care essentials

09 **Injection & Infusion**

Syringes, needles, infusion systems and vascular access

SECTION

SURGICAL GOWNS

Protection designed around clinical performance

SURGICAL GOWNS

Performance apparel for the operating room

COMFORT AND PROTECTION

MEDOCAL surgical gowns balance comfort, value and protection across a wide range of clinical procedures.

MEDOCAL SG-CORE

Standard gown made of fluid-repellent nonwoven fabric with a micro-fiber middle layer. High resistance to Fuids and Bacteria penetration, Abrasion-Resistant and low-linting.

MEDOCAL SG-GUARD

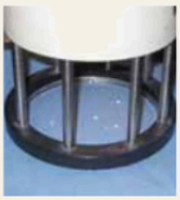

Reinforced gown giving you maximum protection. Made from 5 -layers Polypropylene materials with Anti-static and Fluid Resistance.

MEDOCAL SG-PRO

High Performance Surgical Gown with increased breathability and comfort. Made from 5 -layers Polypropylene materials with Alcohol, Blood, Anti-static and Fluid Resistance.

What will you be wearing?

It's important to choose the right gown for the right procedure. Clinicians and surgeons should begin the surgical gown selection process by considering the following test.

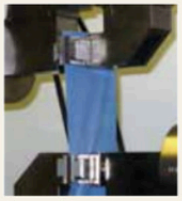

Strike-through resistance test (in cm) — ↑ Higher is better

SG-PRO	140
SG-GUARD	110
SG-CORE	50

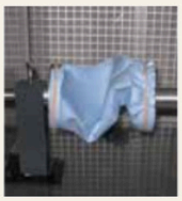

Puncture resistance test (in psi) — ↑ Higher is better

SG-PRO	33.2
SG-GUARD	28.1
SG-CORE	23.2

Strength test (machine direction in lbs.) — ↑ Higher is better

SG-PRO	37
SG-GUARD	28
SG-CORE	22

Lint test (in number of particles ≥1 micron) — ↓ Lower is better

SG-PRO	628
SG-GUARD	507
SG-CORE	1308

SECTION

SURGICAL DRAPES & SETS

Reliable preparation for every procedure

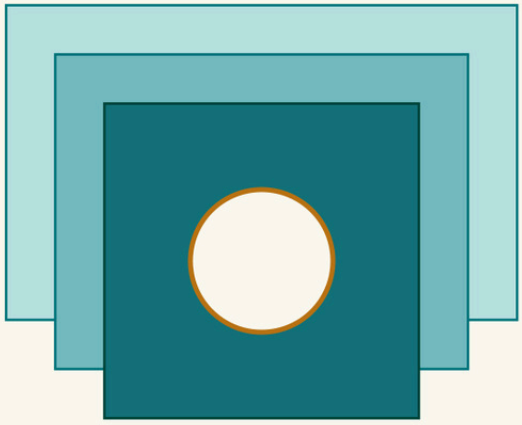

MEDOCAL ASEPTARA

PROCEDURE-READY SURGICAL DRAPING SYSTEM

ASEPTARA

Sterile-field organisation

A MEDOCAL draping concept for clearly organised, procedure-specific configurations using selected materials and components.

ABSORBENT ZONE FLUID BARRIER SECURE SETUP

MEDOCAL ASEPTARA surgical drapes and sets are arranged to support efficient preparation and consistent sterile-field setup. Available configurations depend on the procedure, selected material and approved product specification.

PROCEDURE-READY CONFIGURATIONS

Standard and customized selections can be arranged around the intended clinical procedure.

ORGANIZED COMPONENTS

Clear component grouping supports preparation, identification and consistent pack presentation.

MATERIAL OPTIONS

Standard, absorbent, reinforced and fluid-management options are available by product specification.

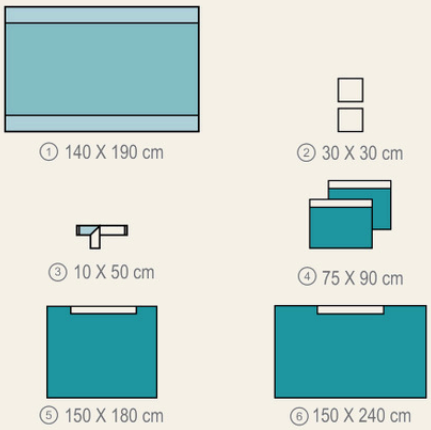

SPECIALTY COVERAGE

Configurations are available across general surgery and selected clinical specialties.

Final product composition, performance and documentation are confirmed for each approved reference.

PROCEDURE PACKS

Procedure-focused efficiency, packed with care

MEDOCAL PROCEDURE PACKS

CLEAR CONFIGURATIONS FOR CONSISTENT PREPARATION

STANDARD & CUSTOM

MEDOCAL procedure packs combine selected single-use components in a clear, procedure-specific configuration. Standard references and customized options are available according to an approved component list and pack specification.

Each configuration is reviewed for component selection, quantities, dimensions, material requirements, pack arrangement and applicable documentation before commercial supply.

STANDARD CONFIGURATIONS

Defined references for frequently used procedures, with clear component and quantity information.

CUSTOM PACK DEVELOPMENT

Configurations can be developed from an agreed component list, required dimensions and pack layout.

SUPPLY COORDINATION

Product identification, documentation and supply planning are coordinated for the approved configuration.

PRODUCT-SPECIFIC CONFIRMATION

Final content and regulatory documentation are confirmed for every MEDOCAL pack reference.

PROTECTIVE APPAREL

Protection, comfort and reliable supply

Guide to Protective Materials

Material selection should reflect the intended procedure, expected exposure level, fit, comfort and the applicable product documentation.

SPUNBOND POLYPROPYLENE

Lightweight non-woven material commonly used for basic protective apparel and low-exposure applications.

COATED POLYPROPYLENE

Spunbond material with a protective coating for situations that require increased resistance to liquid contact.

MULTI-PLY MATERIAL

Layered construction designed to balance fluid resistance, breathability and comfort during extended wear.

BREATHABLE LAMINATE

Microporous film bonded to non-woven material to combine fluid resistance with improved breathability.

Levels of Barrier Protection

Barrier-performance levels help users select protective apparel for the anticipated exposure. Confirm the intended use, test method and regulatory documentation for each product reference.

The table below summarizes commonly referenced barrier levels. Product selection remains subject to the healthcare facility's risk assessment and approved clinical protocol.

ANSI/AAMI PB70 Barrier Performance	Test Method	Test Definition	Requirement
Level 1	Water Resistance: Impact Penetration AATCC 42	AATCC 42 Measures the resistance of fabrics to the liquid penetration of water by impact.	Water Impact </= 4.5 g
Level 2	Water Resistance: Impact Penetration AATCC 42 Water Resistance: Hydrostatic Pressure AATCC 127	AATCC 42 Measures the resistance of fabrics to the liquid penetration of water by impact. AATCC 127 Measures the resistance of fabrics to the liquid penetration of water by impact under constant and increasing hydrostatic pressure.	Spray Impact </= 1.0 g Hydrostatic Pressure >/= 20 cm
Level 3	Water Resistance: Impact Penetration AATCC 42 Water Resistance: Hydrostatic Pressure AATCC 127	AATCC 42 Measures the resistance of fabrics to the liquid penetration of water by impact. AATCC 127 Measures the resistance of fabrics to the liquid penetration of water by impact under constant and increasing hydrostatic pressure.	Spray Impact </= 1.0 g Hydrostatic Pressure >/= 50 cm
Level 4	Viral Penetration ASTM F1671	ASTM F1671 Measures the resistance of fabrics to bloodborne pathogens using viral penetration at 2psi and ambient pressure.	Total Impervious

- Width:100-150cm
- Color: Dark Blue,Light Blue
- Packaging: 1 roll/PE Film

SSF Rolls

Code: MDC-NW-0005

- Super Absorbency
- Latex Free
- Weight:85-110gsm
- Length: 500-800m
- Width:100-150cm
- Color: Dark Blue,Light Blue
- Packaging: 1 roll/PE Film

Absorbent Lamination Rolls

Code: MDC-NW-0006

- 2 layers or 3 layers
- High Absorbency
- Latex Free
- Weight:50-60gsm
- Length: 500-1000m
- Width:100-150cm
- Color: Blue
- Packaging: 1 roll/PE Film

REGULATORY & QUALITY DOCUMENTATION

MEDOCAL products are supplied with the applicable product-specific regulatory, quality and traceability documentation for the intended market and configuration. Documentation is reviewed as part of our supplier and product qualification process.

PRODUCT FILE	Technical data, intended use, materials, dimensions and packaging configuration.
CONFORMITY	Applicable declarations, certificates and market-specific regulatory evidence.
TRACEABILITY	Product, lot and supply-chain records maintained for the relevant configuration.
QUALITY REVIEW	Supplier documentation and specifications reviewed before commercial supply.

DOCUMENTATION AVAILABLE UPON REQUEST | www.pythevsmedical.com

MEDOCAL®

TRUSTED MEDICAL SOLUTIONS

SAFE | RELIABLE | FOR A HEALTHIER TOMORROW

Innovative Solutions. Top Quality Products.

Medocal is the own-brand of K.A. PYTHEVS Ltd, created to meet the real needs of healthcare professionals with high-quality, reliable and cost-effective medical products.

We focus on essential medical disposables and healthcare solutions, combining global sourcing with strict quality standards, to ensure safety, performance and value.

From hospitals and clinics to laboratories and care facilities, Medocal is your trusted partner in everyday healthcare.

QUALITY ASSURED | COST EFFECTIVE | FAST & RELIABLE SUPPLY | TRUSTED BY HEALTHCARE PROFESSIONALS

MEDOCAL | A HEALTHIER TOMORROW TOGETHER.

Care in Every Detail.

MEDOCAL®
TRUSTED MEDICAL SOLUTIONS

TRUSTED MEDICAL SOLUTIONS

Quality-focused medical products for hospitals, clinics, laboratories and healthcare professionals.

QUALITY ASSURED

Consistent product and documentation standards.

DEPENDABLE SUPPLY

Reliable sourcing and responsive support.

CLINICAL FOCUS

Solutions developed around healthcare needs.

MEDOCAL CVC-PROTECT*

14500-14580

Central Venous Catheters

- Complete range of Central Venous Catheters, single, double, triple & quadruple lumen, meeting the needs of intensive care and emergency medication
- The Multi lumen catheters prevent mixing of incompatible drugs thus minimizing the complications

Kit Contents

- Indwelling catheter
- Y-Introducer needle with valve
- J-Tip guide wire (Nitinol / Stainless Steel)
- Dilator
- Luer lock syringe
- Scalpel
- Catheter holder
- Catheter holder clamp

Also available:

Guiding Syringe

Common Features

- Central Venous Catheter made of bio-compatible Polyurethane material provides strength during insertion and also softens at body temperature to conform to the body tissues and reduces the risk and vascular trauma
- Specially designed soft & beveled tip for smooth & easy insertion of catheter
- Soft Flexible J-Tip Guide wire prevents the vessel perforation and also provides good torque to ensure firm insertion
- Radio-opaque material of catheter with clear, definite marking facilitates correct placement of catheter tip

MEDOCAL CVC-PRO available with kink free flexible guidewire made up of Nitinol with J-Tip & lipid resistant cock

* **MEDOCAL CVC-PROTECT** available with needle free connector which provides closed system, kink free flexible guidewire made up of Nitinol with J-Tip & lipid resistant three way stop cock

Needle Free Connector

MEDOCAL CODE: MDC-VA-0014-04

MEDOCAL DIAL-CATH

13450-13477

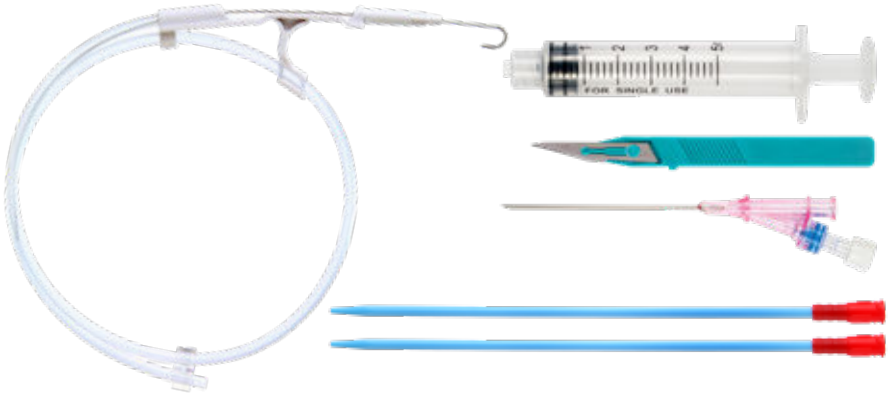

Haemodialysis Catheter Kit (Short Term)

- Indwelling catheter made of specially formulated Polyurethane ensures smooth catheter insertion and better bio-compatibility
- Catheter provides desired strength during insertion, softens at body temperature, thus reducing the risk of vascular trauma.
- Kink free Nitinol guide wire prevents the vessel perforation and also provides good torque to ensure firm insertion
- Radio-opaque catheter tip with clear graduation marking
- Y-shape introducer needle with non-return valve
- User friendly guide wire dispenser
- Silicon injection caps
- Variants: Double & Triple Lumen
- Extensions: Straight & Curved

Kit Contents

- Indwelling catheter
- Y-Introducer needle with valve
- J-tip guide wire (Nitinol/Stainless Steel)
- Dilators- 2 Nos.
- Luer lock syringe
- Injection Caps- 2 Nos.
- Scalpel

Haemodialysis Catheter Kit

Lumen (Straight and Curved extensions)	Size	Length (cm)	OD	OD Diameter (inch) x Length
Double Lumen	11.5 FR	13/15/20	12FR & 10FR	0.035 x 50/70
	12FR	13/15/16/20	12FR & 10FR	0.035 x 50/70
Triple Lumen	12FR	13/16	12FR & 10FR	0.035 x 50/70

Also available with Nitinol Guide Wire MEDOCAL DIAL-CATH (PAC)

MEDOCAL CODE: MDC-DL-0001-04

MEDOCAL DIAL EZEE SYSTEM

13472-13476

Dialysis System

Dial Ezee is a dialysis system with an Intelligent Operating System to deliver dialysis treatment.

Standard Options

- 15-inch LCD with touch screen
- Bicarbonate dialysis
- Accurate concentration of dialysate & conductivity monitoring
- Ultrapure dialysate through endotoxin filter

Powerful Functions

- Bicarbonate dialysis with UF & conductivity profiling
- Arterial & venous pressure monitoring
- Transmembrane pressure monitoring
- Sequential & isolated ultrafiltration
- Heparin pump with safety open syringe system

Safety Features

- Self-testing & auto calibration
- Controlled safety air & blood level detector
- Blood leak monitoring system with photoelectric light
- Detailed alarm indicators with HELP menu
- Battery back up in case of power failure

Advanced Features

- Dual blood pump
- Online Kt/V (adequate dialysis dose finder)
- Self testing functions
- Conveninent & Reliable
- Audio-visual alarms
- Clinical & services excellence

Options available

- Blood Pressure Monitor
- Bicarbonate Cartridge Filter

MEDOCAL CODE: MDC-DL-0002-04

Technical Specifications

General Data

Dimensions	380 (W) X 400 (D) X 1380 (H) mm, weight approx.- 80 kg

Water Supply

Water inlet pressure	1.5-6.0 bar
Water inlet temperature	5^0~32^0
Max. drain height	1 meter

Electrical Data

Power supply	AC 220V ± 10%, 50 HZ
Current consumption	10 A Maximum

Extracorporeal Circuit

Arterial Pressure Monitoring

Display range	-380 mmHg to +400 mmHg
Accuracy	±10 mmHg
Resolution	1 mmHg

Venous Pressure Monitoring

Display range	-180 mmHg to +600 mmHg
Accuracy	±10 mmHg
Resolution	1 mmHg

Transmembrane Pressure Monitoring

Display range	-180 mmHg to +600 mmHg
Accuracy	±20 mmHg
Resolution	1 mmHg
Arterial Blood Pump	
Blood flow range	30 to 600 ml/min
Accuracy	±10 mmHg

Air Bubble Detector

By ultrasonic sound transmission

Additional optical monitoring in venous chamber

Dialysis Fluid Circuit

Range of dialysate temperature regulation	33 to 40^0C
Range of dialysate flow rate regulation	100 to 800 ml/min (incremental by 100 ml/min)
Range of UF rate regulation	0.01 to max 5.00 l/hr
Range of dialysate conductivity regulation	13.0 to 18.0 mS/cm
Range of syringe flow regulation	0 to 9.9 ml/hr with bolus
Available syringe size	10ml/ 20ml/ 30ml
Blood leak detector	Photoelectric detector system
Endotoxin cut filter	Available as standard

Disinfection & Cleaning Process

Rinse

Temperature / Time	37^0C / 10 min

Hot Rinse recirculation

Temperature / Time	85^0C / 30 min

Hot Disinfection with chemical

Temperature / Time	85^0C / 45 min

Technical (Options)

Blood Pressure Monitor

Systole	30-280 mmHg
Diastole	10-240 mmHg
Accuracy	1 mmHg

Bicarbonate

Bi cart	Dry

MEDOCAL DIALYZER

90365-90371

Dialyzer

- Ultra-smooth PU cut surface reduces blood clotting
- Uniform distribution of pore size for higher clearance
- Excellent membrane bio-compatibility
- Variants: Low, Middle & High Flux
- Optimized asymmetric PS/PES membranes
- Max TMP - 600 mmHg
- Sterilization method - Gamma radiation

MEDOCAL CODE: MDC-DL-0003-04

A.V. Fistula Needles

MEDOCAL FISTULA-SAFE

91030-91038, 92000-92018

Safety Fistula Needle

Needle safety guard

A.V. Fistula Needles

90030-90239, 90248-90249

Standard Fistula Needle

Flexible butterfly wings

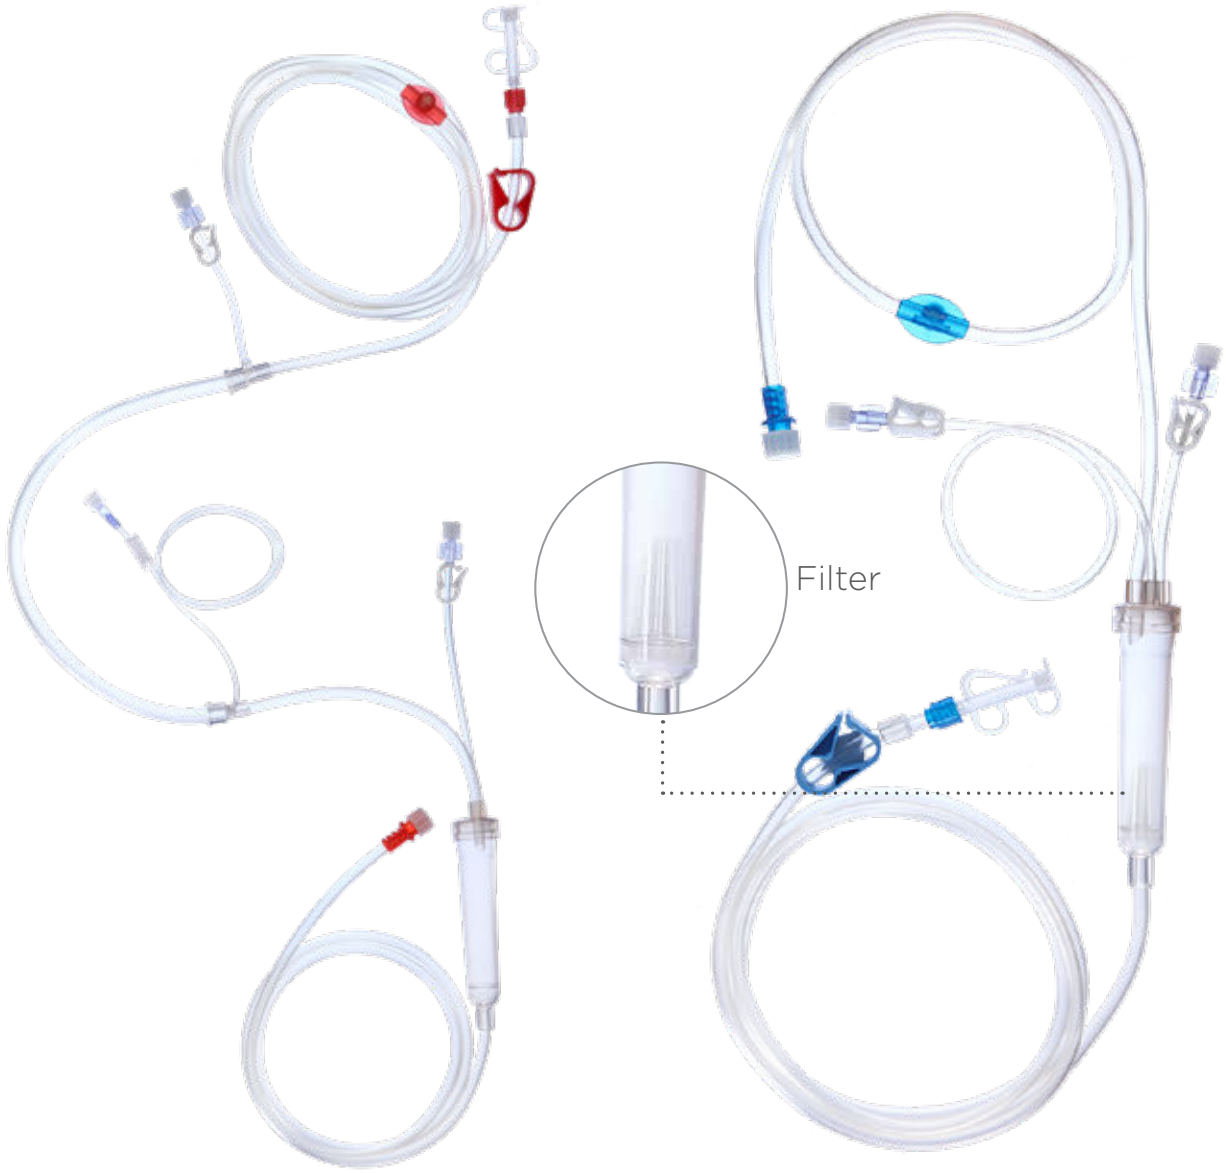

Common Features :

- Ultra thin walled, siliconised & sharp beveled back eyed needle to minimize trauma to the patient
- Flexible butterfly wings for better grip
- Needle with back-eye
- Soft and kink resistant medical grade PVC tubing, DEHP free
- Fistula needle length : 25 mm
- Tube length : 30 cm
- Sizes : 15G, 16G, & 17G
- **Also available with Fixed/Rotating wing**

MEDOCAL DIAL-LINE

70155-70157, 70179

Blood Lines

- Extra corporeal blood circuit tubing set, used during dialysis
- Soft and non kinking tubing
- For single use only
- Medical grade DEHP free PVC tube
- Latex free
- **Available in pre-pump, post pump configuration & with Transducer protector**
- **Also available with Filter**

Transducer Protector

MEDOCAL CODE: MDC-DL-0005-04

MEDOCAL PORT

Implantable port

For chemotherapy, analgesic therapy, antibiotic therapy and other solutions, injections and infusions of blood components and derivatives, repetitive drawing of blood samples.

The system is:

SAFE

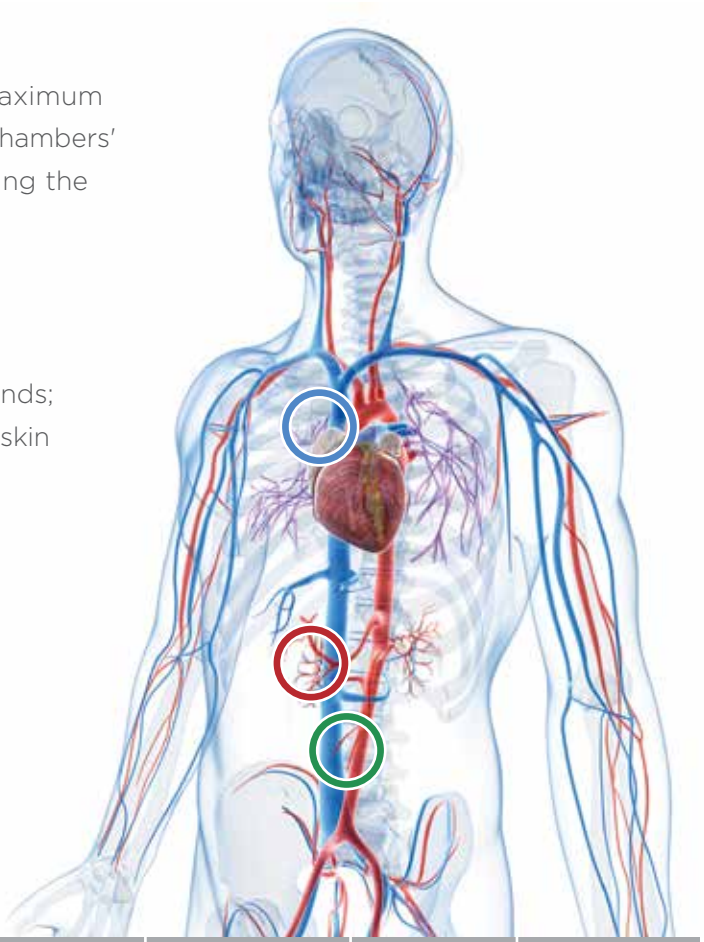

High quality materials and accurate design assure maximum reliability. Robust chambers are leak proof; on all the chambers' models the inner reservoir is made of Titanium, ensuring the highest durability and drug compatibility.

SIMPLE

Catheter connection can easily be done in a few seconds; chamber shapes allow easy introduction into the underskin pocket.

VERSATILE

Wide choice of chamber models and catheter sizes make the **MEDOCAL PORT** system appropriate for all the patients, users and clinical requirements.

ETI Easy to Implant

Implantable port

- Small chamber
- Wedge-shaped for easy insertion into underskin pocket
- Large self-sealing septum facilitates location during skin palpation and reduces risks of puncture concentration
- High needle retention due to pressure exerted on self-sealing septum by titanium components
- Titanium assures highest mechanical reliability and stability

Specifications

Chamber

Material:	Titanium
Shape and dimensions:	Wedged - base 27.5 mm x 19 mm
Height:	10.5 mm
Weight:	10.5 g
Internal volume:	0.53 ml

Septum

Material:	Silicone
Diameter available for puncture:	12.8 mm
Maximum number of punctures:	2000 with 22 GA Huber needle 1000 with 19 GA Huber needle

Catheter with rounded tip, marked with a dot every centimetre and a number every 5 centimetres

PLP Plastic Low Profile

Implantable port

- Low profile plastic chamber, also suitable for patients with thick subcutaneous fat layer
- Light weight and cost-effective
- Titanium internal chamber avoids damages induced by needle tip and avoids interactions between plastic and drugs
- Large self-sealing septum facilitates location during skin palpation and reduces risks of puncture concentration
- Transparent and radiopaque elastomeric connector allows rapid, safe and reversible connection of the catheter

MEDOCAL PORT-DUAL

Implantable Port - Dual Chamber

- Double chamber with independent outlet tubes
- Different diameter and height allow easy and safe identification of each chamber during skin palpation
- Suitable for simultaneous infusion of drugs that are incompatible (e.g. crystallization risk)
- Large self-sealing septums
- Titanium internal chamber avoids damages induced by needle tip and avoids interactions between plastic and drugs

Specifications

Chamber

Material:	Titanium + Polysulphone
Shape and dimensions:	Base 50 mm x 34 mm
Height:	13.9 mm - 15.4 mm
Weight:	19.7 g
Internal volume:	0.53 ml - 0.52 ml

Septum

Material:	Silicone
Diameter available for puncture:	12.7 mm
Maximum number of punctures:	2000 with 22 GA Huber needle
	1000 with 19 GA Huber needle

* For each septum

Catheter with rounded tip, marked with a dot every centimetre and a number every 5 centimetres.

MEDOCAL PICC

Peripherally Inserted Central Catheter

A wide range of POWER CATHETERS and components aligned to the latest clinical procedures for an easy and safe percutaneous access

Intended Use

MEDOCAL PICC identifies a range of catheters suitable for central venous system's access through arm's deep veins. It is recommended for short and long therapies, allowing the venous infusion of liquids, drugs, nutritional therapies and blood samples withdrawal

All **MEDOCAL PICC** catheters are suitable for high-flow rate injection of contrast media ("Power injection")

Features

Po Catheters
All **MEDOCAL PICC** catheter are made of Polyurethane and suitable for high-pressure injections (max flow rate as reported in the table below)

Kit
- **MEDOCAL PICC** catheter marked every centimetre
- Stylet
- Stylet holder and T-connector
- 21GA echogenic needle
- Nitinol straight guidewire
- Dilator/Introducer
- MicroCLAVE®1 neutral connector
- Grip-Lok®2 suture-less adhesive
- Safety scalpel
- Paper ruler
- Instructions for use
- Patient implant card

ECG-compatible for catheter's tip correct placement

Reverse tapered
For an easy and safe implant procedure reducing bleeding risk. Reverse tapering provides excellent kinking resistance too

MEDOCAL CODE: MDC-VA-0016-04

MEDOCAL PICC

PICC Ports

Thanks to arm's deep veins echo-guided venipuncture, it is now possible to combine the advantages of implantable subcutaneous chamber (PORT) with PICC's catheter introduction and placement technique.

The catheter is introduced and placed using PICC's implant technique: echo-guided venipuncture, micro-introducer set, ECG tip control. The catheter is then connected to a small PORT chamber placed in a subcutaneous pocket in the middle third of the arm.

Main indications :

- 6-12 months chemotherapies
- Anatomical hindrances to traditional ports (prosthesis, burns, tracheostomies, etc.)
- Aesthetic concerns

Main PICC-Port advantage :

- Exit-site absence
- Reduced risk of infections compared to PICC
- Reduced maintenance
- Reduced chamber visibility
- Less invasiveness and less patient perception

Specifications

Chamber

Material:	Titanium
Shape and dimensions:	Wedged - base 21 mm x 16 mm
Height:	8.6 mm
Weight:	6 g

MEDOCAL MIDLINE

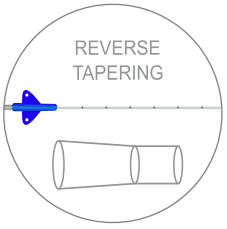

Peripherally inserted
Venous Catheters

For Continuous Infusion

NOT FOR CENTRAL VENOUS ACCESS

Reverse Tapering
For an easy and safe implantation procedure; reducing risk of bleeding
Reverse tapering also offers an excellent resistance to kinking

Complete introducer set

- **MEDOCAL MIDLINE** Catheter
- No CVC Label
- Dilator-Introducer
- Micro:introducer needle
- Straight Nitinol guidewire
- Instruction for use
- Needle free connector
- MicroCLAVE*
- Scalpel
- Paper ruler
- Grip-Lok*

Power injectable catheters
All catheter versions are power injectable ; maximum contrast medium flow rates are specified in the REF table below
Max injector pressure: V300psi
Max fluid density: 12cP
Pre:heating of contrast medium to 37°C is recommended

1 MicroCLAVE® is a registered trademark of ICU Medical, Inc.
2 Grip-Lok® is a registered trademark of TIDI Products, LLC.

Packaging :
Box: 5 units
Sterile Unit: rigid PET-G blister tray sealed onto tyvek lid (primary sterile barrier), external paper pouch (secondary sterile barrier)

Intended use :
The **MEDOCAL MIDLINE** is indicated to be a venous peripherally implanted access for short to mid-term use. In order to permit intravenous administration of fluids, medications, nutritional therapy and to withdraw blood samples. The catheter should be inserted through a vein of the upper arm and is also indicated for “Power” injection of contrast media

MEDOCAL MIDLINE is not a CENTRAL venous catheter, the insertion is easier than a PICC because it is not requested the control of the catheter tip position

WARNING:
The use of **MEDOCAL MIDLINE** is NOT indicated to infuse fluids with osmolarity >800 mOsM/L, pH<5 and pH>9, vesicants and/or potentially irritating the endothelium

Suction Catheters

Endo Bronchial Suction Catheters

20130 -20140 Thumb Control Connector

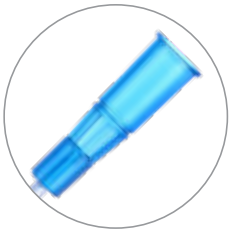

20160-20170 Finger Tip Control Connector

21180-21190 Hard Thumb Control Connector

20100-20110 Standard Connector

Common Features

- For removal of secretion from trachea and bronchial region
- Soft, frosted and kink resistant DEHP free PVC tubing with maximum patient comfort
- Color coded connector for identification of size
- Thumb control & Finger Tip Control are available with graduation marks after every cm
- Length : 50 cms
- Sizes : 5 FG to 24 FG

Atraumatic, soft & rounded Closed tip with one/two lateral Eyes

Also available with Angled Tip

Options Available

24G	Blue	12G	White
22G	Voilet	10G	Black
20G	Yellow	8G	Light Blue
18G	Red	6G	Light Green
16G	Orange	5G	Grey
14G	Green		

Oxygen Catheter

20060-20065

- Suitable for direct administration of oxygen through the nasopharynx
- Funnel connector at proximal end
- Open distal end with multiple lateral eyes
- Soft, frosted & kink resistant DEHP free PVC tubing
- Color coded funnel end for easy size identification
- Tube length: 40 cm
- Sizes : 6FG to 16FG

MEDOCAL CODES: MDC-RC-0002-04 | MDC-RC-0003-04

MEDOCAL RESPIRA

20411

Respiratory Exerciser with Handle

- Innovative system to exercise respiration through aspiration
- Provided with unique handle for easy holding while exercising
- Breathing capacity of 1200cc, 900cc & 600cc
- Innovative design, can be dismantled into parts for cleaning & disinfection
- Air Filter for enhanced protection during inspiration

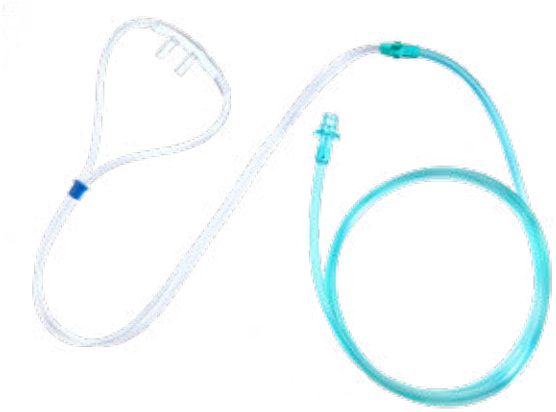

Nasocath

20020-20025

Twin Bore Nasal Oxygen Cannula

- Suitable for easy and efficient administration of oxygen
- Star lumen Kink resistant main tube to avoid accidental blockage
- Soft twin prong nasal tips to ensure equal distribution of oxygen through both air passages which provides maximum patient comfort
- Tube length: 200cm
- Sizes: Adult, Paediatric & Neonatal

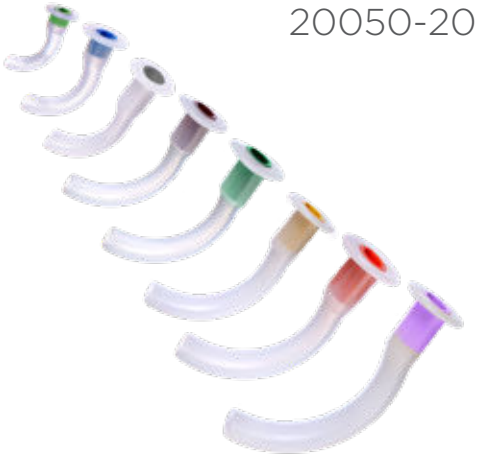

Guedel Airway

20050-20057

Oro-Pharyngeal Airway

- Suitable for maintaining an unobstructed oropharyngeal airway
- Bite block to prevent biting of tongue and airway occlusion
- Rounded atraumatic edges & smooth airway
- Color coded for easy identification of sizes
- Sizes : 000, 00, 0, 1, 2, 3, 4, 5

Also available in

000	00	0	1	2	3	4	5
Light Green	Blue	Grey	Brown	Green	Yellow	Red	Purple

Nebulizer Compressor System

New

91325

- For Efficient Respiratory Therapy
- For Effective Medication Delivery
- Easy Carry Handle
- Light Weight
- Complete Nebulizer kit

Kit contents:
- 1 Pc. Nebulizer Compressor System
- 1 Pc. Adult Mask
- 1 Pc. Paediatric Mask

Oxygen Mask

20115-20118

Variable Concentration Mask

- Suitable for convenient oxygen therapy
- Swivel connector for patient comfort

Venturi Mask

20120-20123

Fixed Concentration Mask

- Easy adjustable, variable venturi system ensures fixed & accurate concentrations of oxygen
- Low concentration (Green color) diluter allows settings of approximately 24%, 26%, 28% & 30%
- Medium concentration (White color) diluter allows settings of approximately 35%, 40% & 50%

MEDOCAL CODES: MDC-RC-0006-04 | MDC-RC-0007-04 | MDC-RC-0008-04

MEDOCAL OXY-MASK

20124-20126

Oxygen Mask with Reservoir

- Suitable for high concentration oxygen therapy
- Comes with a transparent plastic reservoir of 600 ml attached to the mask allows deep breathing without wastage of oxygen
- Non return valves provided to prevent CO_2 retention

Nebulizer Mask

20111-20114

Aerosol Therapy Mask

- Specially designed nebulizer chamber with nebulization rate of approximately 3cc in 10 minutes
- Average particle size generation is approximately 2 microns
- Complete kit consists of: Nebulizer Mask, Nebulizer Chamber, and star lumen tubing

Common Features

- Elongated facemask for long term use
- Clear and soft mask for patient comfort
- Adjustable elastic strip and integrated nose clip for proper positioning of mask
- 200 cm long star lumen tubing to ensure continuous flow of oxygen
- Sizes: Adult and Paediatric

MEDOCAL CODES: MDC-RC-0009-04 | MDC-RC-0010-04

Endotracheal Tubes

Endotracheal Tube (Cuffed)

20150-20159, 20913-20150-20916

- Provided with soft cuff based on high volume and low pressure at the distal end
- Non-return valve with pilot cuff for easy assessment of the pressure in the main cuff

Endotracheal Tube (Plain)

20932-20939

- Made of special thermo sensitive material readily conforming to anatomical curvatures at body temperature

Common Features

- Proximal end fitted with standard 15 mm connector
- Radiopaque line on the tube to facilitate easy location of tube
- Murphy eye at distal end for atraumatic intubation and extubation

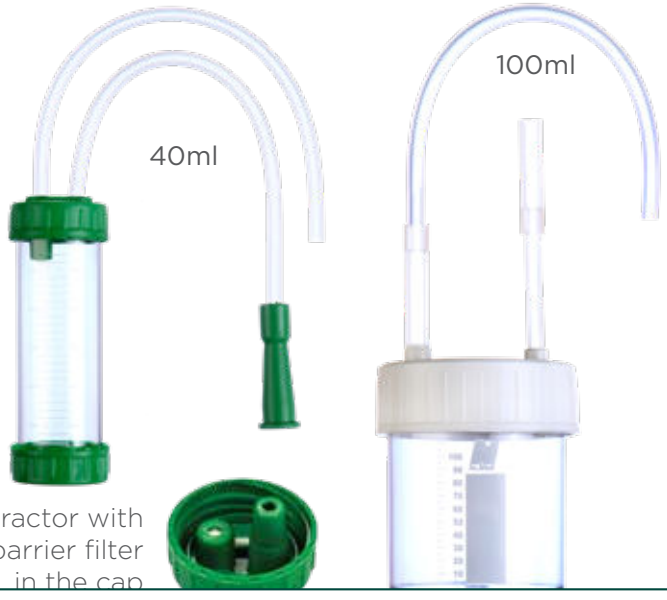

Endotracheal tube sizes (I.D. of the tube in mm) :

Cuffed	-	-	-	3.5	4	4.5	5	5.5	6	6.5	7	7.5	8	8.5	9	9.5	10
Plain	2	2.5	3	3.5	4	4.5	5	5.5	6	-	-	-	-	-	-	-	-

Mucus Extractor

40350-40445

- For aspiration of secretion from oropharynx to ensure free respiration in newly born babies or for suctioning tracheal / bronchial secretions (of newborns, children and adults)
- Convenient to extract mucus specimen for microbiological examination
- Separate screw top lid for safe sealing and handling of aspirate
- Soft, frosted & kink resistant DEHP free PVC tubing
- Also available with thumb control suction catheter
- Available in capacity : 25 ml, 40ml, 100ml, 175ml
- Suction Tube lengths available: 40 & 50 cm
- Suction Tube sizes: From 6FG to 14FG
- **Also available without filter**

Mucus Extractor with bacterial barrier filter in the cap

MEDOCAL CODES: MDC-AN-0003-04 | MDC-RC-0011-04

Spinal Needle

20919-20931

Quincke Point

- Quincke tip enables atraumatic puncture of the dura and minimises the risk of post-spinal headache

Quincke Point

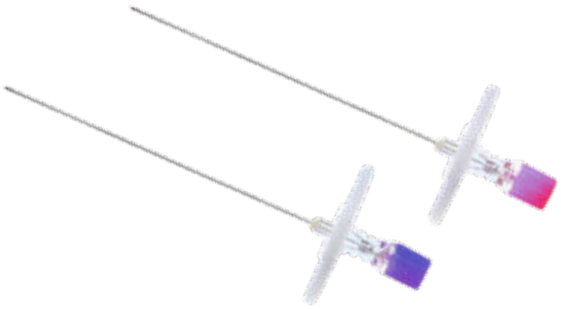

20400-20409, 20917-20918

Whitacre Pencil Point

- Reduces loss of Cerebrospinal fluid and Post dural puncture headache (PDPH)

Pencil Point

Common Features

- Suitable for Spinal anaesthesia
- Conical tip imparts superior tactile feedback
- High flow rate enables faster Cerebro Spinal Fluid (CSF) flashback
- Sizes: - 16 G to 27 G x 3.5”(90 mm) needle length
- **Also available with introducer needle**

Options Available

19G	20G	21G	23G	24G	25G	27G
Cream	Yellow	Deep Green	Deep Blue	Medium Purple	Orange	Grey

Ventilator Circuits

20418

Adult Ventilator Circuits

- 22mm corrugated tube of 1.6 m length
- 22mm male and female circuit adaptors x 2
- Y connector with ports
- Safety cap

20421

Paediatric Ventilator Circuit

- 15mm corrugated tube of 1.6m length
- 22mm / 15mm male and female circuit adaptors x 2
- Y connector with ports
- Safety cap

MEDOCAL CODES: MDC-AN-0004-04 | MDC-RC-0012-04

Ventilator Circuit with one water trap

20419

- 22mm corrugated tube of 1.6 m length
- 22mm male and female circuit adaptors x 2
- One water trap
- Y connector with ports
- Safety cap
- Water trap with capacity of 50ml approx.

Single water tap

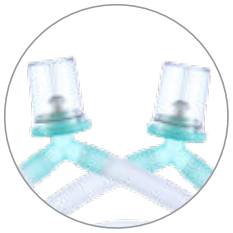

Ventilator Circuit with two water trap

20420, 20423

- Flexible breathing system consists of 2 ports of 22 mm diameter
- Y Connector with ports
- Safety cap
- 22 mm straight connector to connect the machine port
- 2 Water traps
- Water trap with capacity of 50ml approx.

Dual water tap

MEDOCAL CODE: MDC-RC-0012-04

Bain Circuit

20416-20417

Bain Circuit Adult:

- 22mm Corrugated tube of 1.6m length
- 6mm Green PVC tube of 1.6 m length
- APL Valve
- 2.0 L Antistatic Rebreathing bag

Bain Circuit Paediatric:

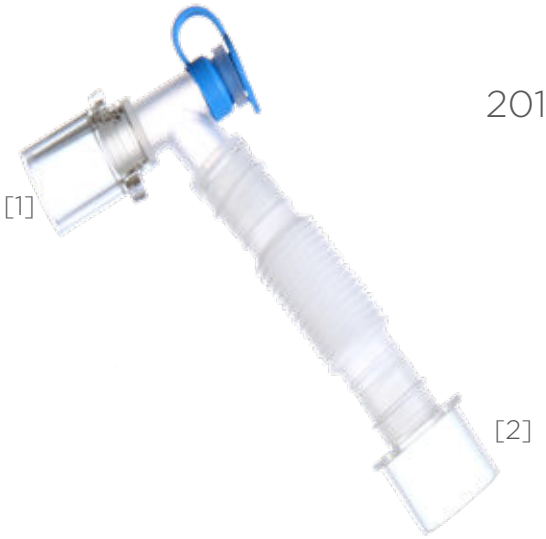

- 15mm and 10mm Corrugated tube of 0.8m & 2m length
- 0.5 L Antistatic Re-breathing bag
- APL Valve

Catheter Mount

- Suitable for connection between endotracheal tube and breathing circuits
- Provided with 22 mm standard female connector compatible with all breathing & ventilator circuits
- An elbow port is provided for easy suctioning without causing disturbance to breathing circuits
- I.D.[1] 15 mm / I.D.[2] 22 mm

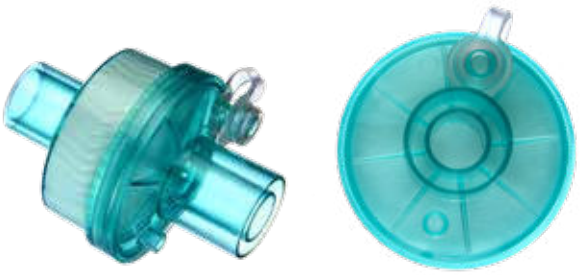

20180

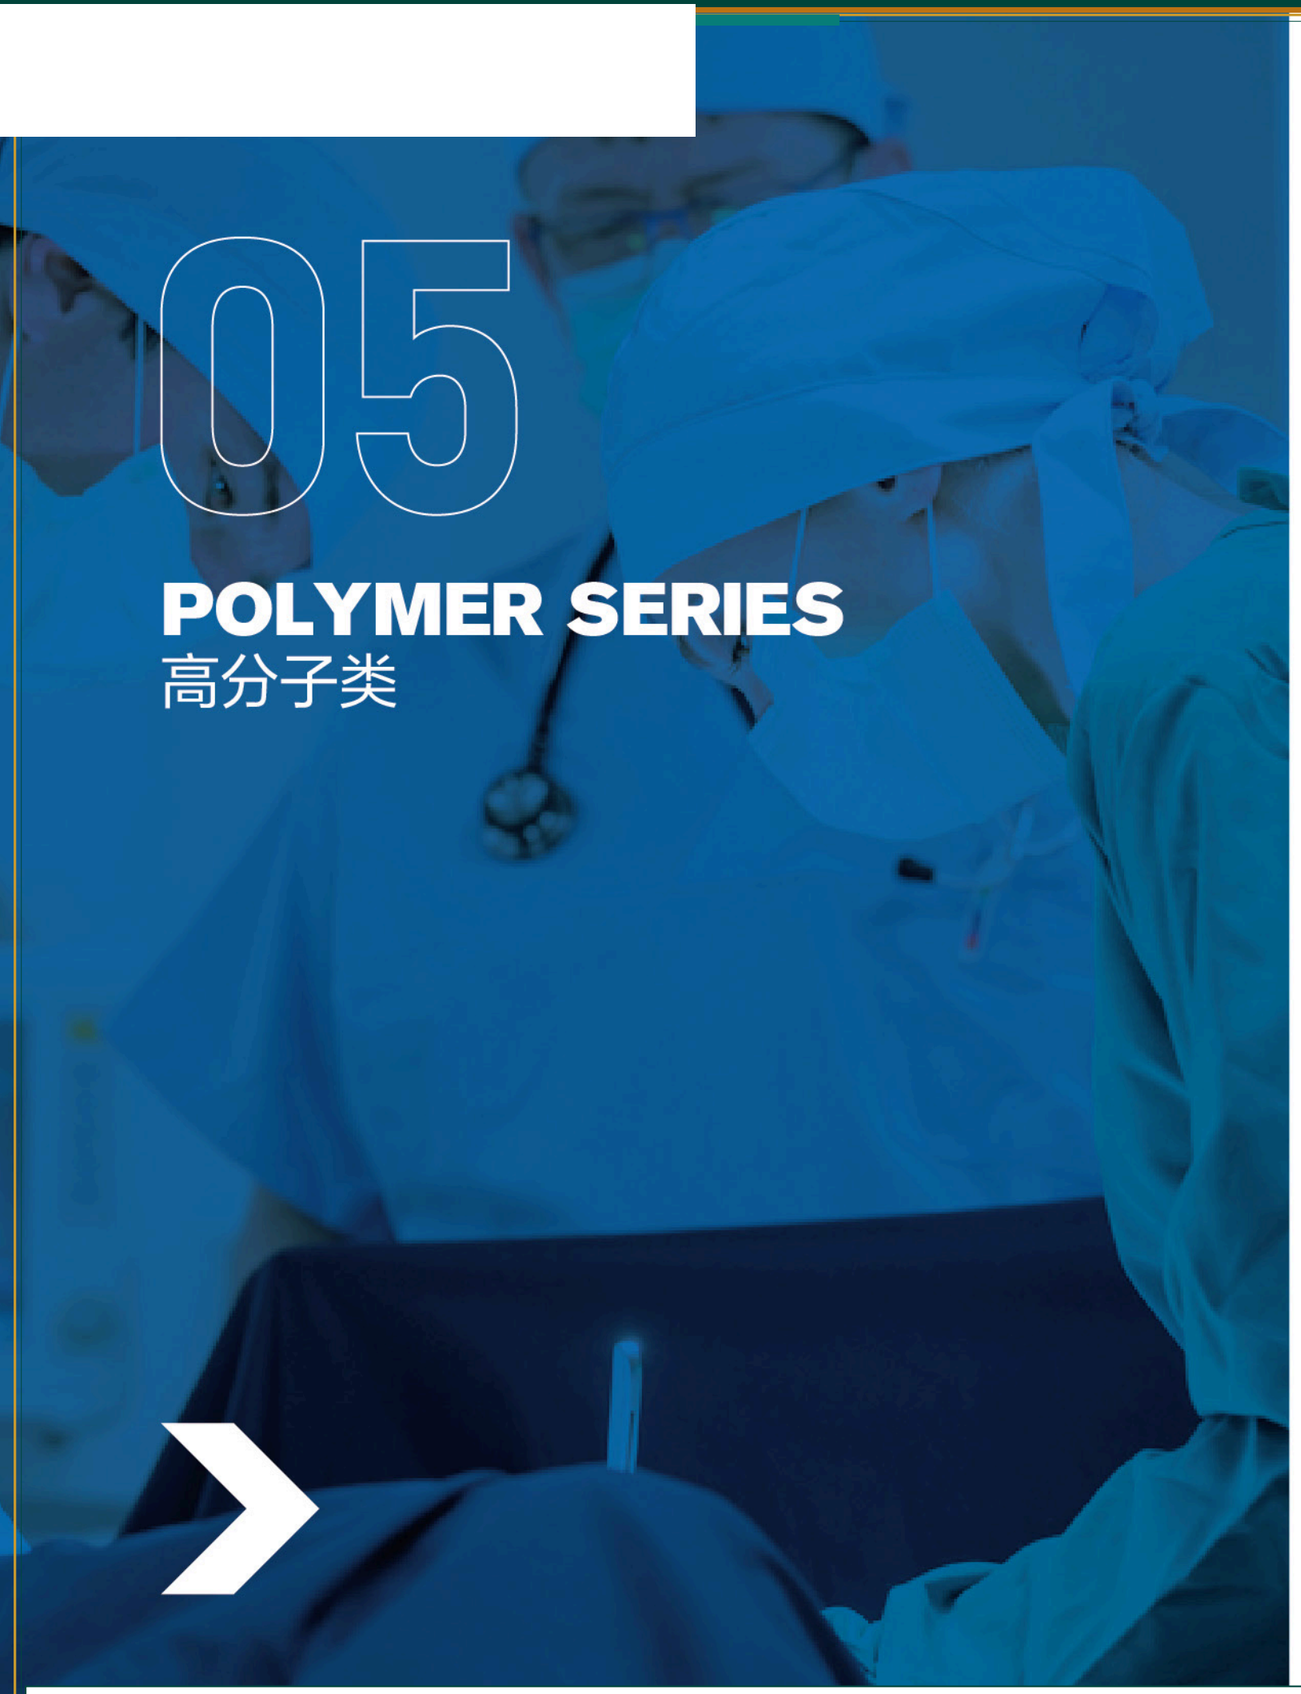

HME Filter

20424

- Heat Moisture Exchange Filter
- Retains heat and moisture from patient's exhaled gas
- Protects the patient, equipment and the breathing circuit from any kind of contamination
- Capnography port allows efficient gas sampling
- Moisture return: 32 mg H_2O/L
- Flow rate: 30 L/minute at pressure 0.2 Mpa
- Filter efficiency: greater than 95%
- Minimum tidal volume: 150 ml

MEDOCAL CODES: MDC-RC-0013-04 | MDC-RC-0014-04 | MDC-RC-0015-04

POLYMER SERIES
高分子类

一次性使用负压引流器 DISPOSABLE NEGATIVE PRESSURE DRAIN

【产品描述 Description】

- 一次性使用负压引流系统由负压球、接口、螺牙盖、单向阀、进气管、罗伯特夹、辅助带、固定夹、引流管（引流管按外形结构分为圆管和扁平管，可选配）、穿刺针组成。扁平管，可选配）、穿刺针组成。
  The disposable negative pressure drain consists of a negative pressure ball, an interface, a screw cap, a check valve, an intake pipe, a Robert clamp, an auxiliary belt, a fixed clamp, and a drainage tube (the drainage tube is divided into a round tube and a flat tube according to the outer shape structure, Optional), puncture needle composition. Flat tube, optional), puncture needle.

【使用用途 Application】

- 适用于临床手术浅表普通伤口引流。
  Used for drainage of superficial common wounds in clinical surgery.

一次性使用硅胶导尿管 DISPOSABLE SILICONE CATHETER

【产品描述 Description】

● 硅胶导尿管由主腔、侧腔、球囊、止逆阀、侧孔等组成。
The silicone catheter consists of a main cavity, a side cavity, a balloon, a check valve, and a side hole.

【使用用途 Application】

● 主要作经尿道插入膀胱内作留置导尿用。
Mainly used for transurethral insertion into the bladder for indwelling catheterization.

一次性硅胶喉罩 DISPOSABLE SILICONE LMA

【产品描述 Description】

- 喉罩由罩囊、连接件、通气导管、接头、充气管、指示气囊、气阀等组成。
  The LMA is composed of a cuff, a neck, a ventilation catheter, a joint, an inflation tube, an indicator balloon, a gas valve, and the like.

【使用用途 Application】

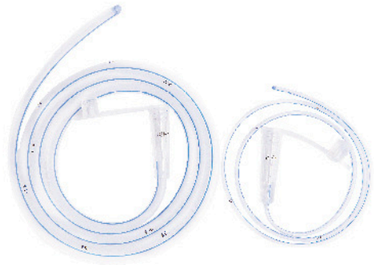

- 喉罩供医护人员为需要进行麻醉、人工通气、或其他辅助呼吸的患者建立短期人工气道时使用。
  Laryngeal masks are used by medical personnel to establish short-term artificial airways for patients who require anesthesia, artificial ventilation, or other assisted breathing.

一次性使用胃管 DISPOS

【产品描述 Description】

- 硅胶胃管由导管、导管头端、导管终端、侧孔等组成。
  The gastric feeding tube is composed of a catheter, a catheter tip, a catheter terminal, a side hole, and the like.

【使用用途 Application】

- 胃管主要供临床急诊、危重病人，经口腔、鼻腔向胃内作灌注药液、饮料或冲洗，吸出液体、气体等用。
  The gastric feeding tube is mainly used for clinical emergency and critically ill patients. It is used for infusion of liquid medicine, beverage or rinsing into the stomach through the oral cavity and nasal cavity, and sucking out liquid and gas.

医用洗耳球 EAR SYRINGE BALL

【产品描述 Description】

- 医用洗耳球由PVC或者TPE原料制造，主要由上下两部分注塑组成，下半部分为球形，上半部分是管状。
  Made of PVC or TPE and mainly consists of upper and lower injection molding parts. The lower part is spherical and the upper part is tubular.

【使用用途 Application】

- 供医疗机构临床灌洗耳部使用。
  Used for clinical ear irrigation in medical institutions.

3. **Enteral feeding**
4. **Wound drainage**

Product availability and final approved configuration are confirmed by PYTHEVS MEDICAL. Manufacturer identities are maintained in the internal supplier master.

Luxury Urine Bag

The Urinal Bags are used to collect urine for patients bearing urine retention symptom, paraplegia patients and patients period.
Characteristic:Composite precision urine bag, Urinary drainage bag,Precise measuring bottle, Universal double-hook and rope hanger, Sampling port with cap.
Volume:1500ml,2000ml

MEDOCAL CODE: MDC-UR-0001-02

Normal Urine Bag

The Urinal bags are assembled by bags, tubing, anti-reflux,connector.

The Urinal bags are used to collect urine for patients bearing urine retention symptom, paraplegia patients and patients period.

Available types:pull-push valve,cross valve,screw valve,without outlet.

Available volume:1000ml,1500ml,2000ml

Components

Combi Stopper

Combi-Stoppers are used to close a luer or luer l ock access on other devices.
Closing cones, Luer Lock fitting male and female.
The devices are compatible with luer accesses.
Easy access for Luer-Slip and Luer-Lock connections.
Sterile closing of all kinds of open IV-accesses in IV-Sets and of pre-filled syringes.
Available colors:blue,white,red

Transfer Set

Fits into rubber stoppers 6.3 mm and bag set ports.
Allows easy flow even with non-evacuated glass vials.
Large internal diameter.Large grip flanges.
Provides secure connection of two containers.

MEDOCAL CODES: MDC-INF-0004-02 | MDC-INF-0005-02 | MDC-INF-0006-02

Three-way stopcock

This product is installed on the pipeline of infusion (blood transfusion) sets and used as a multi-way infusion switch.
It can be used for intravenous injection or transfusion to the human body to ensure the high-speed delivery and ensures the cleanliness of the injection.

Universal Adaptor

Orifice reducers, press in bottle adaptors
Fit for bottle neck size:14.4mm,15.7mm,17.5mm, 20mm,22mm,24mm,28mm.
Material:medical grade PVC.For Oral Syringes.

Urine Collection Bags

MEDOCAL URO-PREMIUM

- Specially molded handle for easy handling
- T-type bottom outlet for single hand operation and efficient emptying of the bag
- Available with sampling port for quick & safe collection of urine sample
- Capacity : 2000 ml, Tube length: 90cm, 100cm
- **Options available:** With or without air filter

30101-30102, 30123

T-type bottom outlet

Needle free Sampling Port (optional)

Air Filter (Optional)

30108-30109

Leg Bag Set

Leg Straps

- Provides freedom of mobility as the bag is attached to the leg of the patient
- Capacity : 800 ml
- Tube length: 50cm & 75cm
- **Available with leg straps**

30110-30111, 30120

Urine Collection Bag with T-type Bottom Outlet and Sampling port

T-type bottom outlet

- T-type bottom outlet for single hand operation and efficient emptying of the bag
- Capacity : 2000 ml Tube length: 100cm

MEDOCAL CODE: MDC-UR-0001-04

MEDOCAL URI-METER

30113-30116, 30119,
30121-30122

- Urine collection bag graduated in ml with measured volume meter for accurate measurement of urine
- Sampling port provided for sample collections maintains closed system, reduces the chance of Urinary Tract Infection
- Reservoir Capacity 250 ml, 500 ml

T-type bottom outlet

Needle Free Sampling Port (optional)

Features

- Inlet tube length : 130 cm
- Capacity of urine collection bag : 2000 ml
- Soft, frosted and kink resistant PVC tubing
- With T-type Bottom outlet
- Specially molded hanger for easy handling
- **Also available with needle free sampling port**

30112

Paediatric Urine Collection Bag

- For short term urine collection
- Suitable for both male and female infants
- Capacity : 100ml
- Provided with special adhesive for better grip and easy removal from soft skin of the infants

MEDOCAL CODE: MDC-UR-0001-04

Urine Drainage Catheters

Short Term Urine Drainage Catheters

Nelaton Catheter

30010-30019

- For short term bladder catheterization through urethra in males
- Length : 40 cms
- Sizes : 6 FG to 24 FG

Rectal Catheter

30040-30051

- For introduction of enema solution into rectum to release / aspire rectal fluid
- Length : 40 cms
- Sizes :18 FG to 32 FG

Female Catheter

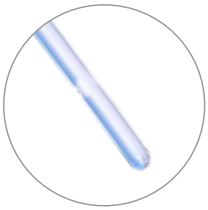

30060-30069

- For short term bladder catheterization through urethra in females
- Length : 18 cms
- Sizes : 6 FG to 20 FG

Common Features

- Soft, frosted and kink resistant DEHP free PVC tubing
- Atraumatic, soft, rounded, closed tip with two lateral eyes for efficient drainage
- Color coded plain connector for easy identification of size

Soft Tip

MEDOCAL CODE: MDC-UR-0003-04

Foley Balloon

30160-30167

- Made of Silicone elastomer bonded with latex rubber, which can be retained in body for longer duration
- Symmetrical foley balloon to ensure upright tip in urinary bladder for proper drainage of urine
- Two lateral eyes to prevent the risk of injury and encrustation
- Hard plastic valve for trouble free inflation and deflation of balloon
- Color-coded for easy identification of stize

Sizes Adult: Two way: 12, 14, 16, 18, 20, 22, 24 FG
Balloon Capacity:
12 FG : 5-15ml
14-24 FG : 15-30 ml

Sizes Paediatric: Two way: 8, 10FG
Balloon Capacity: 3- 5 ml

Irrigation Sets

30520-30524, 30560-30565

Irrigation Set with Soft Chamber

- Made of DEHP free PVC soft flexible chamber delivering high flow rates
- **Also available in single & multi flow dual spike**

Common Features

- Sharp and easy piercing spike
- Smooth roller clamp facilitates easy and controlled adjustment of fluid
- Soft and smooth clamp for easy opening and closing

30540-30544, 30570-30573

Irrigation Set with Pump

- Made of DEHP free PVC chamber delivering high flow rates
- **Also available in single & multi flow dual spike**

MEDOCAL CODES: MDC-UR-0004-04 | MDC-UR-0005-04

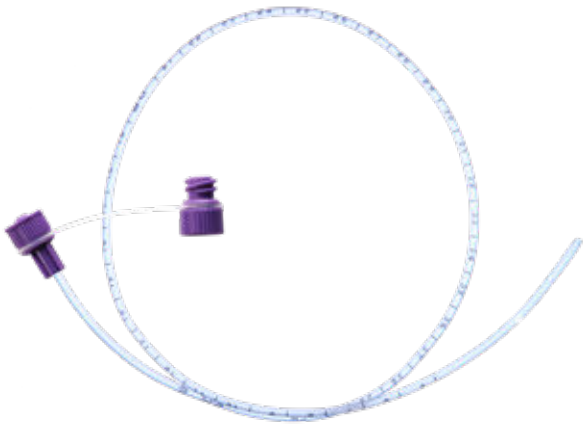

MEDOCAL ENTERA-FIT

Enteral Connector

40210-40258

Infant Feeding Tube with Enteral Connector

- Fitted with enteral connector
- Graduation marking after every cm
- Closed distal end with two lateral eyes
- Soft, frosted & kink resistant PVC tubing with radio-opaque line
- Length : 40, 50 & 100 cm
  Sizes : 4 FG to 10 FG
- DEHP Free

40021-40039

Ryle's Tube with Enteral Connector

- Soft, frosted and kink resistant DEHP free PVC tubing
- Fitted with enteral connector
- Closed distal tip end cone with radio-opaque piece for easy insertion
- Four lateral eyes.
- Tube with radio-opaque line marked at 50, 60 and 70 cm from the tip
- Size 5FG to 18FG
- Length 105cm

40330-40348

Levin's Tube with Enteral Connector

- Soft, frosted and kink resistant DEHP free PVC tubing
- Fitted with enteral connector
- Open or Closed distal tip
- Four lateral eyes
- Tube with radio-opaque line marked at 45, 55, 65 and 75 cm from the tip
- Size 5FG to 18FG
- Length 125cm

MEDOCAL
TRUSTED MEDICAL SOLUTIONS
SAFE | RELIABLE | FOR A HEALTHIER TOMORROW

MEDOCAL ENTERA-FIT

13599

Stopcock with Enteral Connector

- Enteral stopcock is specifically designed for enteral feeding devices, addressing the fragility and small volumes required from preterm and paediatric patients
- Enteral Stopcock contains two inlet(male connector); one to prevent inadvertent connection to vascular, respiratory, or epidural lines and is compatible with Enteral connection syringes for lavage and medication delivery; another for enteral feeding and one outlet port(female connector) where feeding tubes will be connected

13076-13089, 13206

Enteral Extension Set

- Purple color enteral male & female connectors Soft, frosted & kink resistant PVC DEHP free tubing
- Fitted with enteral connector
- **Options available :**
  - Available tube outside diameter Ø 3.0 mm, Ø 2.0 mm & Ø 4.1 mm
  - Available with and without clamp

40260-40269, 40601-40602

Feeding Bag

- Graduated measurements and translucent material allows for the monitoring of fluid level
- Fitted with enteral connector
- Each feeding bag has a pouch to potentially hold ice for formulas or medications requiring cooler temperatures
- Roller clamp adjusts the flow rate of feeding
- Feeding bag is DEHP free

Ryle's Tube

40001-40011

Nasogastric Feeding Tube

- For nasogastric introduction of nutrition and aspiration of gastric intestinal secretion
- Closed distal end coned with radio-opaque material for accurate placement
- Four lateral eyes
- Tube with radio-opaque line, marked at 50, 60 and 70 cm from the tip for accurate placement
- Soft, frosted and kink resistant DEHP free PVC tubing
- Color coded connector with cap for easy identification of size
- Length : 105 cm, Sizes : 6 FG to 24 FG
- **Also available with metal tip**

Levin's Tube

10301-40310

Gastro-Duodenal Feeding Tube

- For gastro-intestinal feeding and aspiration
- Open end with four lateral eyes
- Tube with radio-opaque line, marked at 45, 55, 65 and 75 cm from the tip for accurate placement
- Soft, frosted and kink resistant DEHP free PVC tubing
- Color coded funnel end connector for easy identification of size
- Length: 125 cm, Sizes : 6 FG to 24 FG

MEDOCAL CODES: MDC-EN-0005-04 | MDC-EN-0006-04

Umbilical Catheter

40450-40455, 40463-40464

- Atraumatic, soft rounded open distal tip to reduce vascular trauma
- Tube with radio-opaque line, marked at every cm from 5 to 25 cm from the open distal tip for accurate placement
- Can be used with umbilical vein or artery for infusion, transfusion, administration of medication, blood sampling, pressure measurement etc.
- Color coded funnel end connector for easy identification of size
- Length : 40 cm
- Sizes : 3.5, 4, 5, 6 & 8 FG
- DEHP Free
- **Available with female mount and luer lock**

Available in

8G	7G	6G	5G	4G
Blue	White	Green	Grey	Red

PU Feed

40456-40462

PU Umbilical Catheter

- Umbilical catheter in Polyurethane Material
- Atraumatic, soft rounded open distal tip to reduce trauma
- Provided with graduation mark after every cm
- Length : 40 cm
- Sizes : 3, 3.5, 4, 5, 6 & 8 FG
- DEHP Free
- **Also available with female connector & Luer lock**

Novofeed

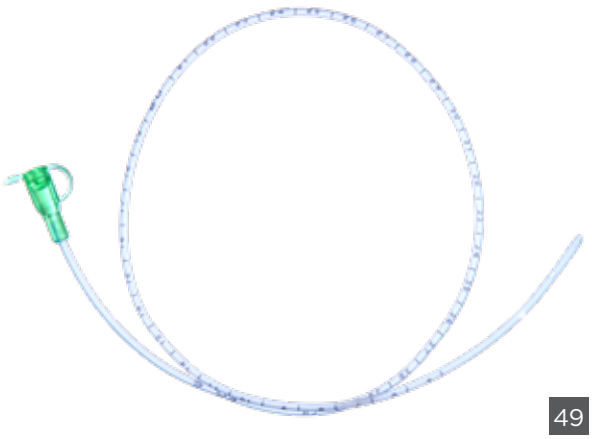

40180-40186, 40200-40206

Infant Feeding Tube with Graduation

- Graduation marking after every cm
- Closed distal end with two lateral eyes
- Soft, frosted & kink resistant PVC tubing with radio-opaque line
- Length : 40, 50 & 100 cm
  Sizes : 4 FG to 10 FG
- DEHP Free
- **Also available with Luer lock**

Female Mount

MEDOCAL CODES: MDC-EN-0007-04 | MDC-EN-0008-04

MEDOCAL VAC-DRAIN

90050-90059, 90125-90135

Closed Wound Suction Unit with Spring

- Closed wound drainage system with graduated Transparent Spring bellow, suitable for drainage under negative pressure post operatively with the options to operate one or two catheters simultaneously
- Sizes of Bellow Chamber : 400ml & 500ml

MEDOCAL VAC-DRAIN

90070-90079, 90136-90139

Closed Wound Suction Unit

- Suitable for close wound drainage under negative pressure post operatively with the option to operate one or two catheters simultaneously
- Graduated Bellow Chamber
- Sizes of Bellow Chamber : 600ml & 800ml

Common features

- Unit consists of:
  - Bellow unit connector
  - Connecting tube with clamp and “Y” connector
  - Curved trocar
  - Perforated DEHP Free Redon drain catheter
- Sizes : 10, 12, 14, 16 & 18FG

Neovac Set

90650-90651

Closed Wound Suction Unit

- Suitable for minor surgery and plastic surgery
- Unit consists of:
  - Bellow container capacity: 50ml
  - Curved trocar with redon catheter
- Sizes : 6 FG & 8 FG

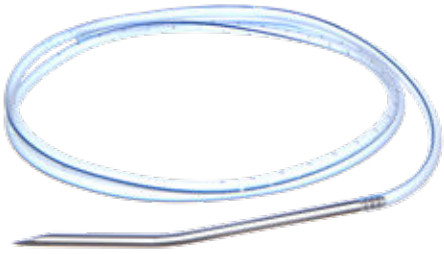

MEDOCAL VAC-HIGH

90500-90502, 90510-90526

High Pressure Vacuum Bottle with Extension Tube

- Clear transparent bottles with bold marking facilitates proper and easy reading
- Kink resistant 105 cm DEHP Free Drainage Tube
- Suitable for high pressure vacuum drainage under negative pressure for post-operative phase
- Accessory: Extension tube with clamp, vacuum indicator & bottle unit with connector
- Graduated bottle chamber available in 200 ml, 400ml, 600ml & 1000ml
- **Also available with Trocar & Redon Drain**

Ultra Cath Novo

Thoracic Drainage Catheters

Ultra Cath Novo - Straight

90080-90089,
90170-90185

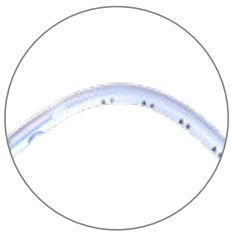

Thoracic Drainage Catheters - Straight

- Suitable for effective drainage after cardio-thoracic & thoracic surgery
- Atraumatic & rounded open distal end with smooth eyes
- Proximal end is fitted with pull through tapered tongue
- With radio-opaque line and markings at every 2 cm from the last eye
- Cross side eyes to prevent tissue aspiration
- Matching size connector for easy connection to the drainage system
- Soft, frosted and kink resistant PVC tubing
- Length: 45 cm
- Sizes: 8, 10, 12, 14, 16, 18, 20, 22, 24, 28, 30, 32, 34, 36, 38, 40FG
- DEHP Free

Ultra Cath Novo - Angled

90540-90549,
90173-90175,
90181

Thoracic Drainage Catheters - Angled

- Catheter is provided with curved (90^0) angle for easy aspiration of drainage
- Sizes: 8, 10, 12, 14, 16, 18, 20, 22, 24, 28, 30, 32, 34, 36, 40FG
- DEHP Free

Ultra Cath Novo - Trocar

90090-90099,
90176-90180
90184, 90186

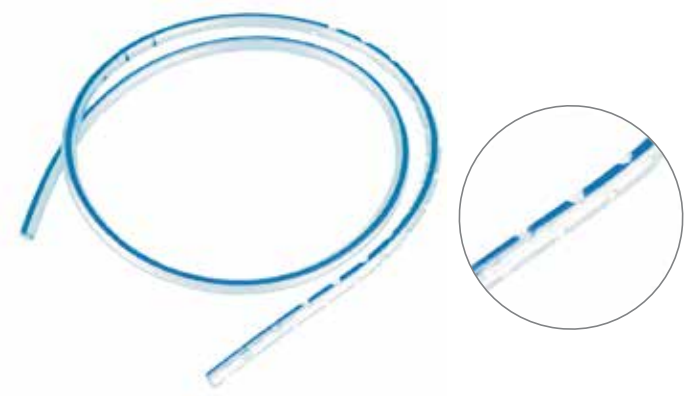

Thoracic Drainage Catheters with Trocar

- Marking provided at 5, 10, 15 & 20 cm from the last eye to help ascertain depth of placement
- Two lateral eyes for efficient drainage
- Proximal end fitted with tapered connector for easy connection to the drainage bottle
- Sizes: 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42FG
- DEHP Free

Redon Drain

90060-90146

- Provided with radio-opaque line and smooth eyes
- Cross perforated length of tube: 15cm
- Markings on the tube at 20 cm from the distal tip
- Soft, frosted & kink resistant PVC tubing
- Length: 50, 70, 120 & 170 cm
- Sizes: 6, 8, 10, 12, 14, 16 & 18 FG
- DEHP Free

MEDOCAL SEAL-DRAIN

90320-90340

Under Water Seal Drainage System

- Suitable for pleural drainage in conjunction with chest drainage catheters in cardio-thoracic procedures
- **MEDOCAL SEAL-DRAIN** is a double chamber compact unit
- Clearly marked initial water level to ensure under water seal
- Clear easy to read graduations marked on bottle to determine the amount of collection
- Writing facility on the side of scale helps in monitoring of drain volume
- Kink resistant large bore tubing facilitates unrestricted flow
- Metallic hangers for easy attachment with bed and floor stand for easy standalone working
- Separate suction port is provided to connect with suction unit

MEDOCAL SEAL-DRAIN
2000 ml

MEDOCAL SEAL-DRAIN

MEDOCAL SUCTION-SET

90140 - 90144, 90155-90169, 90187-90189, 90210-90214, 90240-90241, 90250-90251, 90260, 90270

Yankauer Suction Set

- Suitable for pre-operative removal of secretion and body fluids
- Cut to fit funnel connector to suit different suction pump lines at proximal end. Also available with Kapkon and Conical connector at proximal end
- Standard funnel connector at distal end of tubing to connect Yankauer Handle
- Yankauer Handle is open end-with 4 lateral eyes
- Yankauer Handle available in standard or crown tip with or without vacuum thumb control
- Soft and kink resistant ribbed DEHP Free PVC tubing

Tube Lengths
180 cm
210 cm
250 cm
270 cm
300 cm

Tube Dimensions	
ID	OD
5.0 mm	8.0 mm
6.0 mm	8.5 mm
7.0 mm	10.0 mm
8.0 mm	11.5 mm

Also available with bigger length tube rolls

Yankauer Suction

90160, 90150

Yankauer Suction Set

- Yankauer Handle is open end-with 4 lateral eyes to withstand negative pressure and ensures continuous and easy suction fluid
- Yankauer Handle available in standard or crown tip with or without vacuum thumb control

Crown Tip

Standard Tip

Partnering for Better Care.

CATEGORY GUIDE

BLOOD COLLECTION & MANAGEMENT

1. **Blood administration sets**
2. **Blood bags**
3. **Collection needles**
4. **Collection tubes**

Product availability and final approved configuration are confirmed by PYTHEVS MEDICAL. Manufacturer identities are maintained in the internal supplier master.

70090-70152

MEDOCAL BLOOD-SET

Blood Administration Set with Airvent

- The special priming filter ensures that the line fills automatically (auto prime) thus maintains a closed system until connected
- **Also available with Y injection port (Latex Free)**

MEDOCAL BLOOD-SET

(Double Chamber)

Blood Administration Double Chamber Set with Airvent & Priming Filter

- The special priming filter ensures that the line fills automatically (auto prime) thus maintains a closed system until connected
- **Also available with Y injection port (Latex Free)**

70130

Blood Administration Sets

Blood Administration Set with Light Weight Ball

- Light weight ball facilitates Auto shut mechanism

70130-70173

Transvol Set

Blood Administration Set without Airvent

Common Features

- For transfusion of blood or blood components
- Transparent & flexible drip chamber
- Approximately 20 drops/ml
- Soft and kink resistant DEHP Free PVC tubing
- With 200 micron blood filter
- DEHP Free
- Latex Free
- **Also available with priming filter**

MEDOCAL CODE: MDC-BM-0001-04

Transfusion Pump Set

70150

- Manual Blood Transfusion Pump Set
- Flexible Double drip Chamber
- 200 micron filter suitable for Blood
- Approximately 20 drops/ml
- Needle free Y-site designed for multiple injections
- Soft and kink resistant PVC tubing
- DEHP Free, Latex Free
- **Also available with rotating luer lock**

Needle Free

250 + 300 ml x 3	350 + 300 ml x 3
450 + 300 ml x 3	500 + 300 ml x 3
350 x 2 + 300 ml x 2	
450 x 2 + 300 ml x 2	
Quintuple Blood Bag System-Sizes	
450 + 300 ml x 4	
Transfer Bag System-Sizes	
150 ml, 300 ml	400 ml, 500 ml
Umbilical Cord Bag	
150 ml	
Paediatric Bag	
100 ml	
ACD Bag	
250 ml, 500 ml	

Common Features

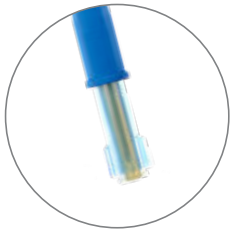

- Siliconised ultra thin walled, 16G, sharp Japanese needle assures smooth and atraumatic venipuncture
- Soft, frosted and flexible kink resistant tubing with unique identification number
- Tamper proof, safe and easy to open port covers to prevent contamination
- Manufactured from high quality medical grade PVC sheet
- Rounded shape of bag minimizes loss of blood components during transfer & transfusion
- Double, Triple, Quadruple & Quintuple blood bag systems are provided with snap tip and connector tube to allow smooth transfer of blood components and additive solution
- Tamper evident label
- Individually packed in special multi layer pouch and multiples packed in moisture barrier aluminium pouch
- Convenient hanger slits and holes allow easy suspension of the bags during collection & storage
- Anticoagulant CPDA solution preserves whole blood up to 35 days
- CPD SAGM solution preserves RBC upto 42 days

MEDOCAL CODE: MDC-BM-0003-04

Blood Bag with Safety Device & Sampling Bag

71040-71068, 75040-75077, 75340-75369

- Blood bag with safety needle shield enhances safety against the accidental needle stick injuries that can transmit HIV, Hepatitis B & C and other dangerous blood borne diseases
- Initial blood collected from the donor tends to contain skin particles, bacteria present at the site of venipuncture & dust particles. The pre-attached sampling bag enables to divert & collect this initial amount of blood from donor. The rest of the blood, free from the impurities is collected in the main bag
- Pre-attached luer adapter is being provided with sampling bag to have safe in-line multiple sampling from donor. It is compatible with all sorts of vacuum blood collection tubes & prevents the risk of needle stick injuries
- **Also available in single, double, triple, quadruple & quintuple blood bag systems**

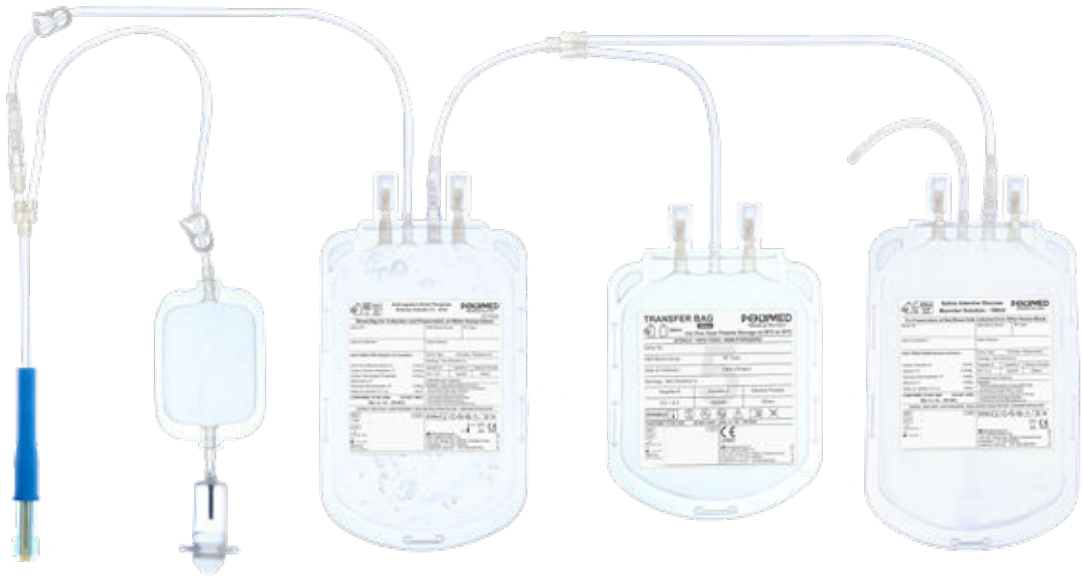

Safety Needle Shield

Sampling Bag

Pre-attached Luer Adapter

74000, 74001

ACD Bag

- Anticoagulant Citrate Dextrose bag
- Anticoagulant used during apheresis
- **Also available in 250ml & 500ml**

MEDOCAL CODES: MDC-BM-0004-04 | MDC-BM-0005-04

CPD-SAGM-TOTM Bag

72000-72036

- Additive solution containing combinations of Saline, Adenine, Glucose and Manitol (SAGM) provides extended shelf life of RBC up to 42 days with increased functional viability
- TOTM (Tri-Octyl-Tri-Mellitate) Plasticised Platelet transfer bag with sufficient gas permeability is suitable for extended storage of viable platelets for approximately 5 days at 25 degree Celsius
- Reduced density of red blood cell concentrate on addition of SAGM solution allows better flow property of Red blood celland better transfusion
- Allows larger volume of plasma to be collected and hence better yield of components like platelets, fresh frozen plasma, and cryoprecipitate
- High level of ATP in red blood cells as red cell viability is increased because of SAGM solution
- **Available in double, triple, quadruple & quintuple blood bag systems**

Top & Bottom Extraction Bag System

73005-73024, 72050-72053, 75400-75401, 75420-75421, 76050-76068

- Quality blood components in the form of Red Blood Cells, Plasma and Platelets from collected Whole Blood
- Reduced cost of production of quality blood components
- **Also available in triple, quadruple & quintuple blood bag systems**

MEDOCAL CODES: MDC-BM-0006-04 | MDC-BM-0007-04

Blood Bag with In-Line Leuko-Depletion Filter

76000-76100

- For separation of Leukocytes depleted RBC, Plasma & Platelet
- Minimal volume loss & therefore better Red Blood Cell recovery
- Soft housing of filter ensures safety of blood bag during centrifugation
- No sterile connections required during process control
- Transparent housing provides visual monitoring during filtration

Leuko-Depletion Filter

Blood Collection Needles

88260-88265

HaemoFlash

Flashback Needle

- Instant flashback to ensure successful needle placement

Product Code	Sizes
88263	21G×1"
88260	21G×1.5"
88264	22G×1"
88261	22G×1.5"
88262	23G×1.5"
88265	23G×1"

Flashback

88110-88150

Multi Sample Needle

Product Code	Sizes
88110	20G×1.5"
88120	21G×1"
88130	21G×1.5"
88140	22G×1"
88150	22G×1.5"

Features

- **Safe and user friendly:** Multi-sample drawing needles reduce risk of contamination and eliminate direct user-contact with blood sample
- **Leak proof needle:** On removing blood collection tube from needle, the needle is covered and closed off with rubber shield
- Suitable for multiple blood collection

Description:
Contains 3.8% buffered sodium citrate for westergren sedimentation rate determination

Nuovo Safe

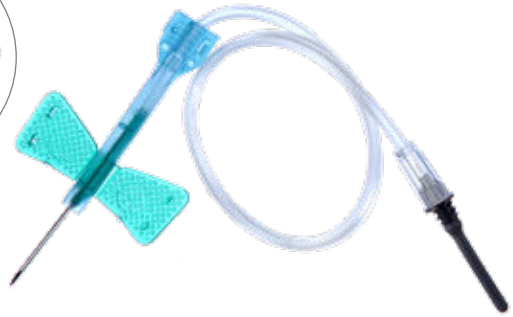

Safety Blood Collection Set

88280-88286

- Safety winged blood collection set with multiple sample luer adapter allowing specimen collection from a closed system
- After completion of the blood collection, safety needle shield is slided over the needle until it is in locked position
- Easier & safer blood collection with no compromise to patient care
- Safety needle shield minimizes the risk of needle stick injuries
- Color coded flexible wings

WOUND CARE & DRESSINGS

1. **Sterile dressings**
2. **Gauze & swabs**
3. **Bandages**
4. **Cotton & tapes**

Product availability and finished approved configuration are confirmed by PYTHEVS MEDICAL. Manufacturer identities are maintained in the internal supplier master.

急救包 FIRST AID KIT

【产品描述 Description】

- 由创可贴、医用脱脂纱布片和胶带、医用无纺布片、弹力绷带、纱布绷带、急救毯、三角绷带、一次性使用PE检查手套、一次性使用医用口罩、医用冰袋、医用棉签、医用棉球、医用脱脂棉等组成。
  It consists of medical plaster, medical gauze swabs and adhesive tapes, medical non-woven swabs, elastic bandages, gauze bandages, first aid blankets, triangular bandages, disposable PE examination gloves, disposable medical face Mask, medical ice pack, cotton swabstick, cotton ball and absorbent cotton etc..

换药包 TREATMENT KIT

【产品描述 Description】

- 换药包包含创建无菌防水场所和在现场执行伤口护理程序所需的所有基本组件。
  Treatment package kit contains all of the essential components necessary to create a sterile waterproof field and perform wound care procedures on the field.

Name of item	Code of item	Specification	Package
Treatment package kit	203701	Standard kit	1 set/bag, 50bags/case
	203702	Oral care kit	1 set/bag, 50bags/case
	203703	Remove the stitches kit	1 set/bag, 50bags/case

导尿包 URETHRAL CATHETER KIT

【产品描述 Description】

- 提供方便、经济的导尿程序，组件以正确的顺序进行组装，以确保使用顺畅。
  Urethral Catheterization Trays offer convenient, economical catheterization procedures, with the component packing within the tray to assure all the components are available in the proper sequence during the procedure.

02

WOUND CARE
伤口护理类

一次性使用无菌敷贴 DISPOSABLE STERILE DRESSING

【产品描述 Description】

- 由粘性背衬层，吸收层和隔离膜组成，用于覆盖伤口吸收渗液并防止感染。
  It consists of a adhesive backing layer, an absorbing layer, and an isolating membrane to cover the wound and absorb exudate and prevent infection.

【性能特点 Features】

- 吸收层表面有防黏连膜，使渗液迅速导流至吸收层。
  With an anti-adhesion film on the surface of the absorption layer, exudate can be quickly diverted to the absorption layer.
- 吸收层材质柔软，吸液迅速。
  Absorbent material is soft, can absorb liquid quickly.
- 采用丙烯酸酯胶，粘性好、低致敏。
  Acrylic glue, good viscosity, low sensitization

【使用用途 Application】

- 全院使用，处理各种伤口。
  To treat all kinds of wounds in hosptital.

Name of item	Code of item	Specification	Package
Disposable Sterile Dressing	200101	6cmx7cm，with 1 Strip	1pc/pouch, 20pouches/box, 30boxes/case
	200102	6cmx7cm，with 2 Strip	1pc/pouch, 20pouches/box, 30boxes/case

藻酸盐敷贴 ALGINATE APPLICATION

【产品描述 Description】

- 以藻酸盐纤维为原料，通过非织造工艺制成的无纺布类产品。
  Alginate fiber as raw material, use the non-woven technology.

【性能特点 Features】

- 促进伤口愈合，具有生物相容性、可降解、高吸湿的优点。
  Promote wound healing, with the advantages of biocompatibility, degradability and high moisture absorption.
- 吸收渗液后形成凝胶，提供湿性愈合环境。
  Gel is formed after absorbing the exudate to provide a wet healing environment.

【使用用途 Application】

- 用于吸收体表或腔洞型伤口的渗出液，如压疮、溃疡、烧伤、供皮区等。
  It is used to absorb exudate from superficial or cavity wounds, such as pressure sores, ulcers, burns, donor sites, etc.

Name of item	Code of item	Specification	Package
Alginate Dressing	200301	5x10cm	1pc/pouch, 20pouches/box, 30boxes/case
	200302	10x15cm	1pc/pouch, 20pouches/box, 30boxes/case
	200303	10x25cm	1pc/pouch, 15pouches/box, 30boxes/case
	200304	15x20cm	1pc/pouch, 15pouches/box, 30boxes/case
	200305	20x35cm	1pc/pouch, 15pouches/box, 30boxes/case

聚氨酯泡沫敷料 POLYURETHANE FOAM DRESSING

【产品描述 Description】

- 聚氨酯泡沫敷料分为普通型和复合型。普通型聚氨酯泡沫敷料由聚氨酯泡沫组成；复合型聚氨酯泡沫敷料由覆合聚氨酯薄膜的聚氨酯泡沫组成。
  Polyurethane foam dressings are divided into common type and compound type.General polyurethane foam dressing is composed of polyurethane foam;Composite polyurethane foam dressing consists of polyurethane foam coated with polyurethane film.

【性能特点 Features】

- 高效吸收渗液，促进伤口愈合。
  Absorb exudate efficiently and promote wound healing.
- 垂直发泡技术，压力均匀分布，预防压疮。
  Vertical foaming technology, uniform pressure distribution, prevent pressure sores.

【使用用途 Application】

- 适用于中到大量渗出液的创面，吸收创面渗出液。
  Suitable for medium to large amount of exudate wound, absorb wound exudate.

Name of item	Code of item	Specification	Package

医用脱脂纱布 ABSORBENT GAUZE

【产品描述 Description】

● 医用脱脂纱布是100%优质纯棉纱经过脱脂和漂白。这种医用脱脂纱布是白色柔软，吸水性强。医用脱脂纱布卷可分为平幅卷、对折卷、四折卷、空心卷。本款脱脂纱布采用普通级非无菌包装，可根据用途来定制。

Absorbent gauze is made of 100% high-quality pure cotton yarn after degreasing and bleaching. This medical absorbent gauze is white, soft, and has strong water absorption. Medical absorbent gauze roll can be divided into flat rolls, 2 ply rolls, 4 ply rolls, and pillow type in rolls. This absorbent gauze adopts ordinary grade non-sterile packaging, which can be tailored according to the purpose.

【性能特点 Features】

● 产品具有超强的柔软性和病人的舒适度，高吸水性，低毛屑。
The products have super softness and patient comfort, high absorbency, and low lint.

● 本产品不含荧光剂，无毒、无刺激性、无敏性。
The products have no fluorescent agent, non-toxic, non-irritating, non-sensitizing.

● 可以根据要求来做各种尺寸，密度和层数的医用脱脂纱布产品。
The absorbent gauze is available in various sizes, meshes and plies.

医用纱布片 GAUZE SW

【产品描述 Description】

● 100%纯棉脱脂漂白纱布，在十万级净化车间内经机器自动折叠而成，手感柔软，具有超强吸收能力，用于吸收血液和渗透液，也可包敷伤口，起隔离伤口的作用。
Gauze swab (sponge) is made of 100% cotton, automatically folded by machine in the 100,000-grade purification workshop, soft to the touch, with super absorptive capacity, used to absorb blood and osmotic fluid, can also be used for wound, isolation of the wound.

【性能特点 Features】

● 产品具有超强的柔软性和病人的舒适度，高吸水性，低毛屑。
The products have super softness and patient comfort, high absorbency, and low lint.

● 本产品不含荧光剂，无毒、无刺激性、无敏性。
The products have no fluorescent agent, non-toxic, non-irritating, non-sensitizing.

● 根据客户要求，可生产不同经纬密度，不同规格尺寸。
The gauze swab (sponge) is available in various meshes and sizes according to the requirement of customers.

● 产品分折边和不折边，也分带X线 和不带X线，也分灭菌和不灭菌包装。
Products are divided into folded and unfolded edges, also divided into with X-ray and without X-ray thread, also divided into sterile and non-sterile packaging.

曲缩纱布片 FLUFFY GAU

【产品描述 Description】

- 曲缩片是由100%纯棉脱脂漂白纱布制成。优越的柔软性和吸水性使曲缩片成为良好的初级或二级敷料。它们的快速吸干作用有助于减少液体的聚集，减少浸渍。曲缩片为患者提供舒适、快速吸干作用，优越的透气性和优异的吸收率。

  Super fluffy gauze sponge is made of 100% cotton. Superior soft, bulk and absorbency make absorbent fluffy gauze sponge excellent primary or secondary dressing. Their fast wicking action helps reduce the pooling of fluids, decreasing maceration. The super fluffy gauze sponge provides patient comfort, fast-wicking action, superior aeration, and excellent absorbency.

【性能特点 Features】

- 产品具有超强的柔软性和病人的舒适度，高吸水性，低毛屑。

  The products have super softness and patient comfort, high absorbency, and low lint.

- 本产品不含荧光剂，无毒、无刺激性、无敏性。

  The products have no fluorescent agent, non-toxic, non-irritating, non-sensitizing.

- 根据客户要求，可生产不同经纬密度，不同规格尺寸。

  The fluffy gauze sponge is available in various meshes and sizes according to the requirement of customers.

医用棉签 COTTON SWA

【产品描述 Description】

- 搭配消毒液用于体表消毒的产品。
  Products used for surface disinfection with disinfectant.

【性能特点 Features】

- 灭菌产品，安全性高。
  Sterilized products with high safety.
- 棉棒强度使用，富有韧性，便于操作。
  The cotton swab has high strength and toughness, making it easy to operate.
- 棉头为优质脱脂棉，吸液量大，擦拭均匀。
  The cotton head is made of high-quality degreased cotton, with a large suction capacity and even wiping.
- 落絮少，质量稳定。
  Fewer flocs and stable quality.

【使用用途 Application】

- 全院使用，用于操作前体表消毒、或涂抹药膏使用。
  Used throughout the hospital for surface disinfection or ointment application before operation.

无纺布片 NON WOVEN SWAB (SPONGE)

【产品描述 Description】

- 无纺布片由无纺布制成，吸水性强。它是合成纤维的混纺物，粘胶和涤纶。与传统的梭织纱布相比，无纺布片产生的皮屑少，吸收率高。它们通过更好的透气性和更大的柔软性改善患者的舒适度。无纺布拭子是伤口敷料的理想选择，可以改善伤口护理管理。
  Non-woven swab (sponge) is made of non-woven fabric and has strong water absorption. It is a blend of synthetic fibers, such as viscose and polyester. Compared with traditional woven gauze, non-woven swabs produce less lint and higher absorbency. They improve patient comfort with better air permeability and greater softness. Nonwoven swabs are ideal for wound dressing and offer improved wound care management.

【性能特点 Features】

- 它没有绒毛和纱线。
  It has no fluff and thread.
- 本产品不含荧光剂，无毒、无刺激性、无敏性。
  The products have no fluorescent agent, non-toxic, non-irritating, non-sensitizing.
- 其吸水性强，经济环保。吸收率高，绒毛少，透气性好。超级柔软和耐心的舒适。不含粘合剂和光学增白剂。
  Its water absorption is strong, and it is economical and environmentally friendly. High absorbency, low lint and permeable to air. Super softness and patient comfort. Free of binding agents and optical brighteners.
- 根据客户要求，可生产不同重量，不同规格尺寸。
  The non woven swab (sponge) is available in various weight and sizes according to the requirement of customers.

无纺布胶带 NON WOVE

【产品描述 Description】

- 无纺布胶带由压敏胶涂于基材上制成，经固化后，复卷、分切而成，不与创面直接接触，粘贴部位为完好皮肤。
  The non woven tape is made by coating pressure-sensitive adhesive on the substrate, after curing, rewinding and slitting, it does not directly contact the wound surface, and the sticking part is intact skin.

【性能特点 Features】

- 压敏胶对皮肤无刺激性，不易过敏。
  Pressure sensitive adhesive has no irritation to the skin and is not easily allergic.
- 粘性良好，透气性好。
  Good adhesion and breathability.

【使用用途 Application】

- 本产品主要供一般外科手术绊创或其他的医疗粘贴固定用。
  This product is mainly used for general surgical procedures or other medical paste fixation.

固定绷带 ELASTIC ADHESIVE BANDAGE

【产品描述 Description】

- 加压固定绷带是一种由棉和高分子聚合物组成。单面涂覆。
  Elastic adhesive bandage is made of cotton and a high polymer. Coating on one side.

【性能特点 Features】

- 牢固支撑受伤关节，提供强大的压缩和长期支撑，牢固可靠。
  Firm support for injured joints, provides strong compression and long-term support, firm reliable self-adhesive.
- 可以根据要求来做各种尺寸，密度的产品。
  Elastic adhesive bandage is available in various sizes, meshes.

纱布绷带 GAUZE BANDAGE

【产品描述 Description】

● 纱布绷带由100%纯棉制成，柔软舒适，绒毛低，吸收率高。是固定敷料，夹板或提供温和的压缩和支持的理想选择。

Gauze Bandage without woven-edge is made of 100% cotton gauze, soft and conformable, low lint, high absorbency. Ideal for securing dressings, splints or for providing mild compression and support.

【性能特点 Features】

● 产品具有超强的柔软性和病人的舒适度，高吸水性，低毛屑。
The products have super softness and patient comfort, high absorbency, and low lint.

● 本产品不含荧光剂，无毒、无刺激性、无敏性。
The products have no fluorescent agent, non-toxic, non-irritating, non-sensitizing.

● 可以根据要求来做各种尺寸，密度的产品。

弹性绷带 ELASTIC BANDAGE

【产品描述 Description】

● 弹性绷带是根据客人的要求由腈纶、涤纶、氨纶、橡胶、涤棉等不同成分组成。绷带有良好的伸展性和固定性，对皮肤无过敏、柔软、透气舒适。

Elastic bandages are composed of acrylic, polyester, spandex, rubber, polyester cotton and other different components according to the customer's requirements. The bandage has good extensibility and firmness, no allergy to the skin, soft, breathable and comfortable.

【性能特点 Features】

● 弹性好，延展性强。
Good elasticity, strong ductility.

● 用于创面敷料和肢体提供束缚力。
It is used for wound dressing and provides binding force to limbs.

● 可以根据要求来做各种尺寸，密度的产品。

酒精片系列 ALCOHOL PREP PAD SERIES

【产品描述 Description】

- 采用优质无纺布与医用酒精为原料精制而成，擦拭清洁体表，降低菌群、减少交叉感染。
  Made of high-quality non-woven fabric and medical alcohol as raw materials, it is used to wipe and clean the body surface, reduce bacterial flora, and reduce cross infection.

【性能特点 Features】

- 70%医用酒精，高效杀菌、无异味残留。
  70% isopropyl alcohol, highly effective in sterilization and without residual odor.
- 单片铝箔包装、安全卫生，使用便捷。
  Single piece aluminum foil packaging, safe and hygienic, and convenient to use.

【使用用途 Application】

- 皮肤表面消毒、输液前消毒。
  Skin surface disinfection and disinfection before infusion.
- 用于日常用品的清洁消毒和家庭护理。
  Used for cleaning, disinfection, and home care of daily necessities.

聚维酮碘棉棒系列 POVI

【产品描述 Description】

- 采用优质棉棒与聚维酮碘溶液为原料精制而成，擦拭清洁体表，降低菌群、减少交叉感染。
  Made of high-quality swab stick and povidone iodine solution, it is used to wipe and clean the body surface, reduce bacterial flora, and reduce cross infection.

【性能特点 Features】

- 10%聚维酮碘，高效杀菌、无异味残留。
  10% povidone iodine, highly effective in sterilization and without residual odor.
- 棉棒硬度适中，棉头吸液丰富，擦拭均匀。
  The hardness of the swabstick is moderate, and the cotton tip absorbs rich liquid, ensuring even wiping.

【使用用途 Application】

- 皮肤表面消毒、输液前消毒。
  Skin surface disinfection and disinfection before infusion.
- 用于日常用品的清洁消毒和家庭护理。
  Used for cleaning, disinfection, and home care of daily necessities.

聚维酮碘溶液消毒液 PVP DISINFECTANT SOLUTION

【产品描述 Description】

● 以聚维酮碘为有效成分的消毒液，碘含量5%-10%。
A disinfectant with povidone iodine as the active ingredient, iodine content 5%-10%.

【性能特点 Features】

● 高效消毒、刺激性小、无异味残留。
Efficient disinfection, small irritation, no odor residue.

● 喷嘴雾化效果好、使用更便捷。
Nozzle atomization effect is good, more convenient to use.

【使用用途 Application】

● 全院使用，适用于体表和创面、黏膜消毒。
It is used in the whole hospital and is suitable for body surface, wound and mucosa disinfection.

● 可用于外科手消毒和手术切口部位皮肤消毒。
It will be used for surgical hand disinfection and surgical incision site skin disinfection.

湿巾/干巾 WET WIPES/DRY WIPES

【产品描述 Description】

- 由非织造布，RO纯水，符合双链季铵盐或医用酒精溶液或苯扎氯铵等不同溶液精制而成。
  It is made of spunlance non woven, RO purifed water, double chain quaternary ammonium salt or medical alcohol solution or benzalkonium chloride and other different solutions.

【性能特点 Features】

- 快速消毒，杀菌性能高达99.9%。
  Rapid disinfection, sterilization performance up to 99.9%.
- 持续抑菌，抑菌时间可达数小时。
  Continuous bacteriostatic, bacteriostatic time can be up to several hours.
- 包装设计方便拿取，且标注时间。
  The package is designed for easy access and time labeling

【适用范围 Application】

- 适用于物体表面，医疗设备和手部的清洁消毒。
  Suitable for cleaning and disinfecting surfaces, medical equipment and hands.

防护服 PROTECTIVE COVERALL

【产品描述 Description】

● 由高性能无纺布和抗静电透气膜复合制成，为操作者提供高水平防护。
Made of high-performance non-woven fabric and anti-static breathable film, providing operators with high-level protection.

【使用用途 Application】

● 在高水平防护要求场所下使用，如隔离病房、核酸采样、感染病房等。
Used in places with high-level protection requirements, such as isolation sickroom, nucleic acid sampling, infection sickroom, etc.

● 用于海关、安检、商检等高接触暴露风险的场所。
Used for customs, security inspection, commodity inspection and other places with high exposure risk.

检查手套 EXAMINATION (

【产品描述 Description】

● 可由PE、PVC、橡胶或丁腈制成，可有效防止感染，是不可或缺的手部保护产品。
It can be made of PE, PVC, rubber or nitrile, which can effectively prevent infection and is an indispensable hand protection product.

【性能特点 Features】

● 盒装设计抽取方便。
The box design is easy to extract.

● 抗静电处理，不吸附毛发灰尘。
Anti static treatment, does not adsorb hair dust.

医用帽 MECIAL CAP

【产品描述 Description】

● 由无纺布制成，帽口采用松紧设计穿戴舒适。
Made of non-woven fabric, the cap has an elastic design and is comfortable to wear.

【性能特点 Features】

● 帽口采用松紧设计穿戴舒适。
The cap has an elastic design and is comfortable to wear.

● 款式多样，满足不同需求。
Variety of styles to meet different needs.

医用隔离鞋套 MEDICAL ISOLATION OVERBOOT

【产品描述 Description】

● 采用防水材料制成，有效防止液体渗透。
Made of waterproof materials, effectively preventing liquid penetration.

【性能特点 Features】

● 款式多样，能满足不同需求。
Various styles can meet different needs.

● 松紧带收口设计，确保密合性。
Elastic band closure design ensures tightness.

● 底部防滑设计，增加行走安全性。
Bottom anti slip design increases walking safety.

隔离眼罩（护目镜）PROTECTIVE GOGGLES

【产品描述 Description】

- 由高分子材料和固定装置组成。
  Composed of polymer materials and fixtures.

【使用用途 Application】

- 检查时起防护作用，阻隔体液、血液飞溅或泼溅。
  It plays a protective role in the examination, preventing body fluid and blood from splashing.
- 可应用于采样、门诊、安检、窗口等场所。
  Used in nucleic acid sampling, outpatient department, security check, window and other places.
- 可用于骨科、脑外科等大型手术。
  Used for large operations such as orthopedics and brain surgery.

Name of item	Code of item	Specification	Package
Medical protective goggles	401201	16.5x7.5cm, Non sterile	1pc/bag, 20bags/case
	401202	16.5x7.5cm,Sterile	1pc/bag, 20bags/case

医用隔离面屏 FACE SHIELD

【产品描述 Description】

- 由防护罩、泡沫条和固定装置组成。
  Composed of protective cover, foam strip and fixing device.

【使用用途 Application】

- 检查时起防护作用，阻隔体液、血液飞溅或泼溅。
  It plays a protective role in the examination, preventing body fluid and blood from splashing.
- 可应用于采样、门诊、安检、窗口等场所。
  Used in nucleic acid sampling, outpatient department, security check, window and other places.

Medical protective face shield	401301	32x22cm non-sterile	10pcs/bag，20bag/case
	401302	32x22cm sterile	10pcs/bag，20bag/case

病人袜 PATIENT SLIPP

【产品描述 Description】

- 采用涤纶及防滑胶制成。
  Made of polyester and anti-slip glue.

【使用用途 Application】

- 单面胶或者双面胶防滑袜给病人带来舒适，而且很容易穿脱。
  Single or double-tread slippers provide patient comfort and are easy to put on and take off.
- 内部毛巾布提供温暖，同时吸收来自脚的汗水。
  The interior terry cloth provides warmth while absorbing perspiration from the foot.
- 大尺寸提供额外的弹力在袖口和身体增加舒适。
  Bariatric size provides extra stretch in the cuff and body for added comfort.

医用润滑剂 LUBRICATING JELLY

【产品描述 Description】

- 医用润滑剂由甘油、聚乙二醇、卡波姆、对羟基苯甲酸甲酯、4-羟基苯甲酸丙酯、氢氧化钠、蒸馏水等组成。
  Consists of glycerin, polyethylene glycol, carbomer, methyl p-hydroxybenzoate, propyl 4-hydroxybenzoate, sodium hydroxide, and distilled water, etc.

【使用用途 Application】

- 适用于医疗器械进入人体腔道的润滑， 如胃镜、肠镜、阴道镜等。
  It is applicable to the lubrication of medical devices entering human cavity, such as gastroscope, enteroscope, colposcope, etc.
- 适用于置管润滑，如导尿管、鼻饲管等。
  Used for lubrication of catheters, such as urinary catheters, nasal feeding tubes, etc.

医用超声耦合剂 ULTRAS

【产品描述 Description】

- 由甘油、聚乙二醇、卡波姆、氢氧化钠、注射用水等组成。
  Composed of glycerin, polyethylene glycol, carbomer, sodium hydroxide, and injection water, etc.

【使用用途 Application】

- 用于探头与患者之间的超声耦合。
  Used for ultrasonic coupling between probe and patient.
- 常用于B超室。
  Commonly used in ultra-sound radiography room.

Name of item	Code of item	Specification	Package
Medical ultrasound Gel	501301	20g/pouch	20pouches/box,10boxes/case
	501302	250g/tube	25tubes/case

氧气湿化瓶 PREFILLED HUMIDIFIER

【产品描述 Description】

- 由注射用水配置，经消毒和适当包装而成。
  It is prepared from water for injection that is sterilized and suitably packaged.

【使用用途 Application】

- 用于增加患者呼吸气体的湿度，以缓解干燥空气引起的问题。
  Used to add humidity to a patient's breathing gases to ease to alleviate problems caused by dry air.

Name of item	Code of item	Specification	Package
Prefilled humidifier	502001	340ml	1bottle/set, 12sets/carton
	502002	650ml	1bottle/set, 6sets/carton

NON WOVEN FABRICS
非织造布类

水刺无纺布 SPUNLACE I

【产品描述 Description】

● 水刺无纺布由粘胶、涤纶为主要原料生产而成。
Mainly made of rayon and polyester.

【使用用途 Application】

● 卫生护理（棉尿裤、卫生巾表层等）。
Health care (cotton diapers, sanitary napkin surface, etc.).

● 美容护理（面膜、化妆棉、湿巾等）。
Beauty care (facial mask, cotton pad, wipes, etc.).

● 家庭护理领域（厨房干、湿擦巾等）。
Home care (kitchen dry wipes and wet wipes, etc.).

● 医疗领域（无纺布片、医用胶带等）。
Medical field (non-woven fabric, medical tape, etc.).

● 工业领域（绝缘材料、防污擦尘等）。
Industrial field (insulation materials, anti pollution and dust, etc.).

MEDOCAL CODE: MDC-INJ-0002-02

MEDOCAL®
TRUSTED MEDICAL SOLUTIONS

Disposable Luer Slip Syringe

Product is based on ISO7886-1 and ISO80369-7,
compatible with hypodermic needle.
Primary packaging is sterile blister peel pouch or tear polybag.
Available sizes: 1ml,2ml,2.5ml,3ml,5ml,6ml,10ml,12ml,20ml,
30ml,50ml,60ml,100ml,120ml

MEDOCAL CODE: MDC-INJ-0002-02

Disposable Two Parts Syringe

Disposable Two Parts Syringe:

Syringe barrel is made of medical grade polypropylene.

Syringe plunger is made of medical grade polyethylene.

Product is basedon ISO7886-1 and ISO80369-7,compatible with hypodermic needle.

Available sizes: 1ml,2ml,5ml,10ml,20ml

MEDOCAL CODE: MDC-INJ-0003-02

MEDOCAL®
TRUSTED MEDICAL SOLUTIONS

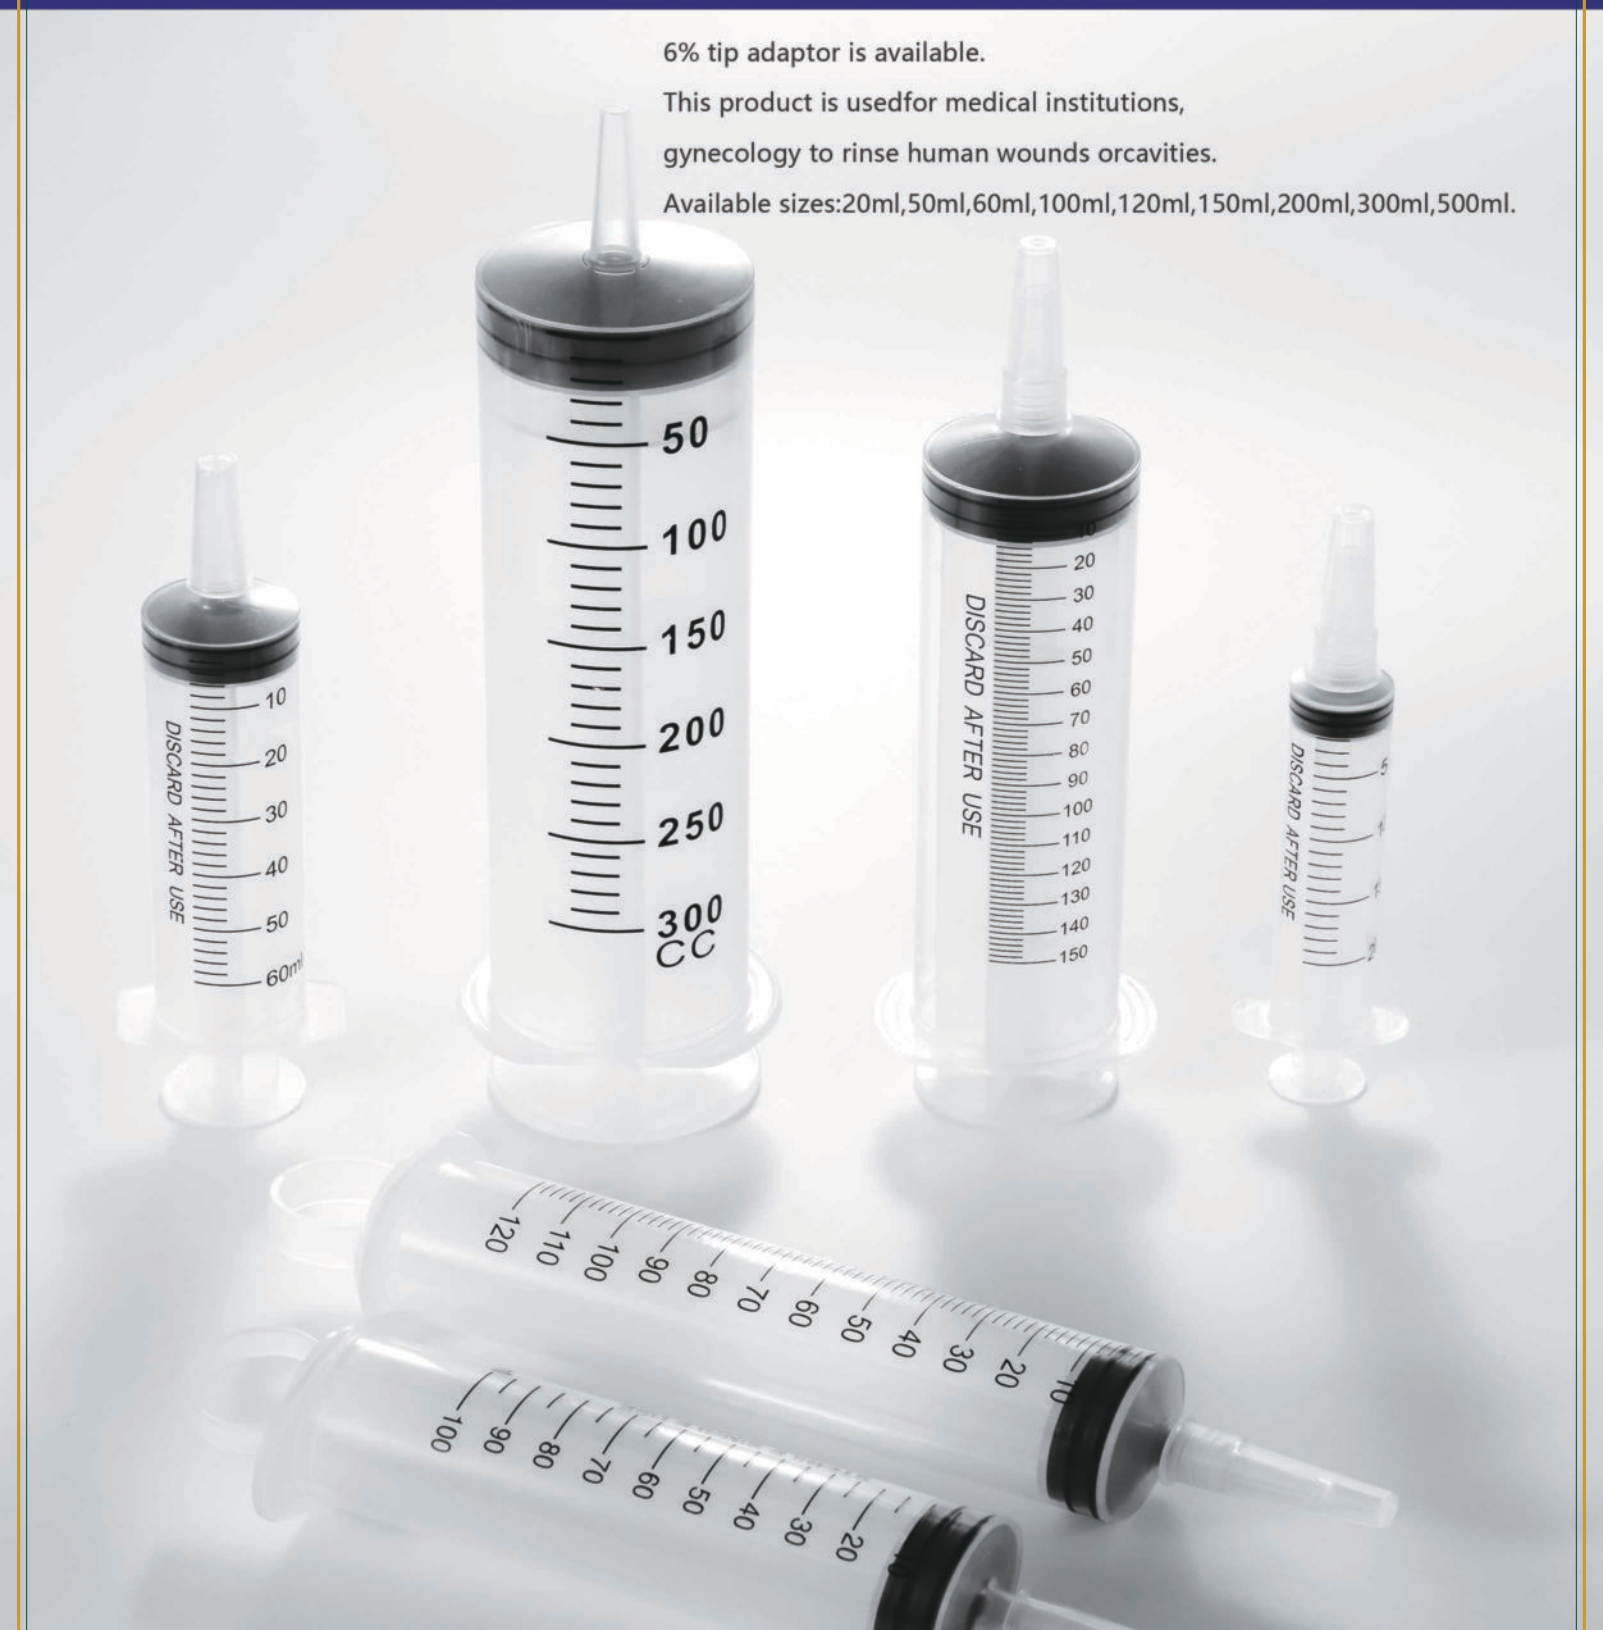

Irrigation(Catheter Tip) Syringe

6% tip adaptor is available.

This product is usedfor medical institutions,

gynecology to rinse human wounds orcavities.

Available sizes:20ml,50ml,60ml,100ml,120ml,150ml,200ml,300ml,500ml.

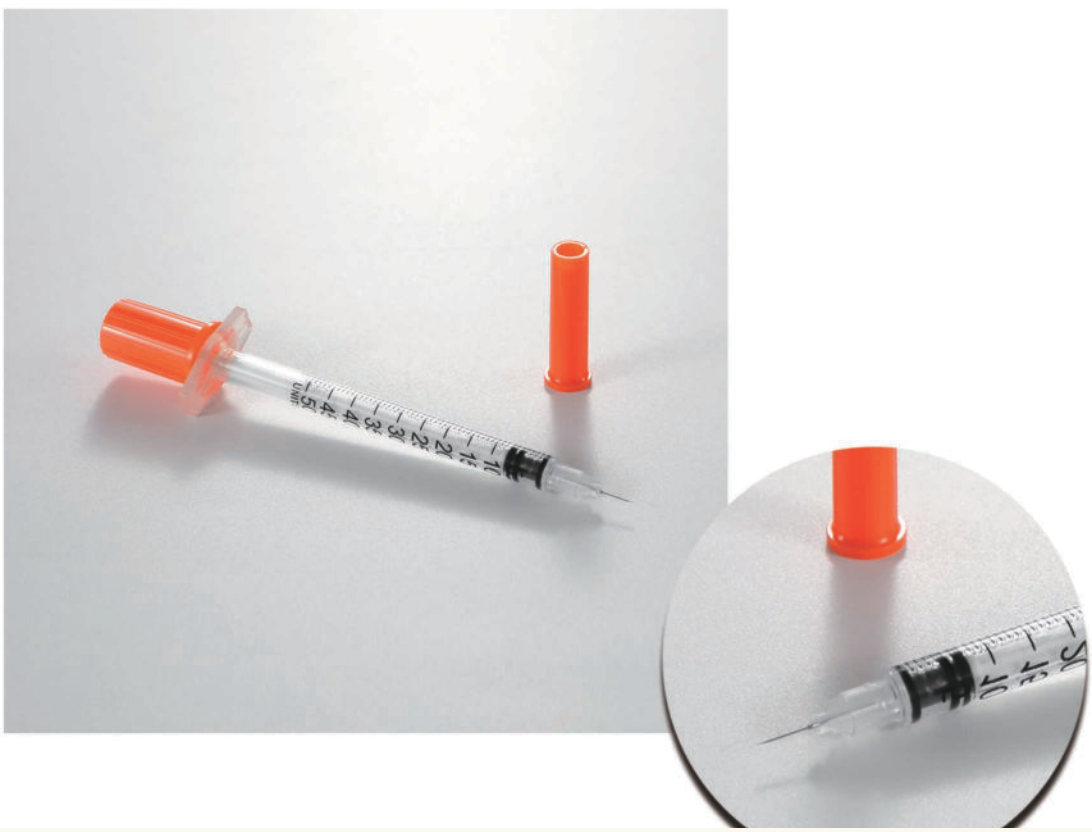

MEDOCAL CODE: MDC-INJ-0004-02

Disposable Insulin Syringe

Syringe body is made of medical grade polypropylene.
Needle is made of medical grade SUS304.
The protective cap is made of medical grade polyethylene.
This product is used for subcutaneous,intramuscular injection etc.
Primary packaging is blister peel pouch or tear polybag or compound bag(10pcs pack).
Available sizes:0.3ml,0.5ml and 1ml with 29G/30G/31G needles.
Available units:40units,100units.
Product standard:ISO8537,type 8 syringe.

MEDOCAL CODE: MDC-INJ-0005-02

Low Dead Space(Volume) Syringe

Low Dead Space(Volume) Syringe:

This LDS(LDV) syringe is used for vaccination purpose(intramuscularinjection).

The average dead space is 0.0032ml,min dead space is 0.0028ml.

Syringe body is made of medical grade polypropylene.Fixed Needle is made of medical grade SUS304.

Protective cap is made of medical grade polyethylene,it can be blue,transparent or orange color.

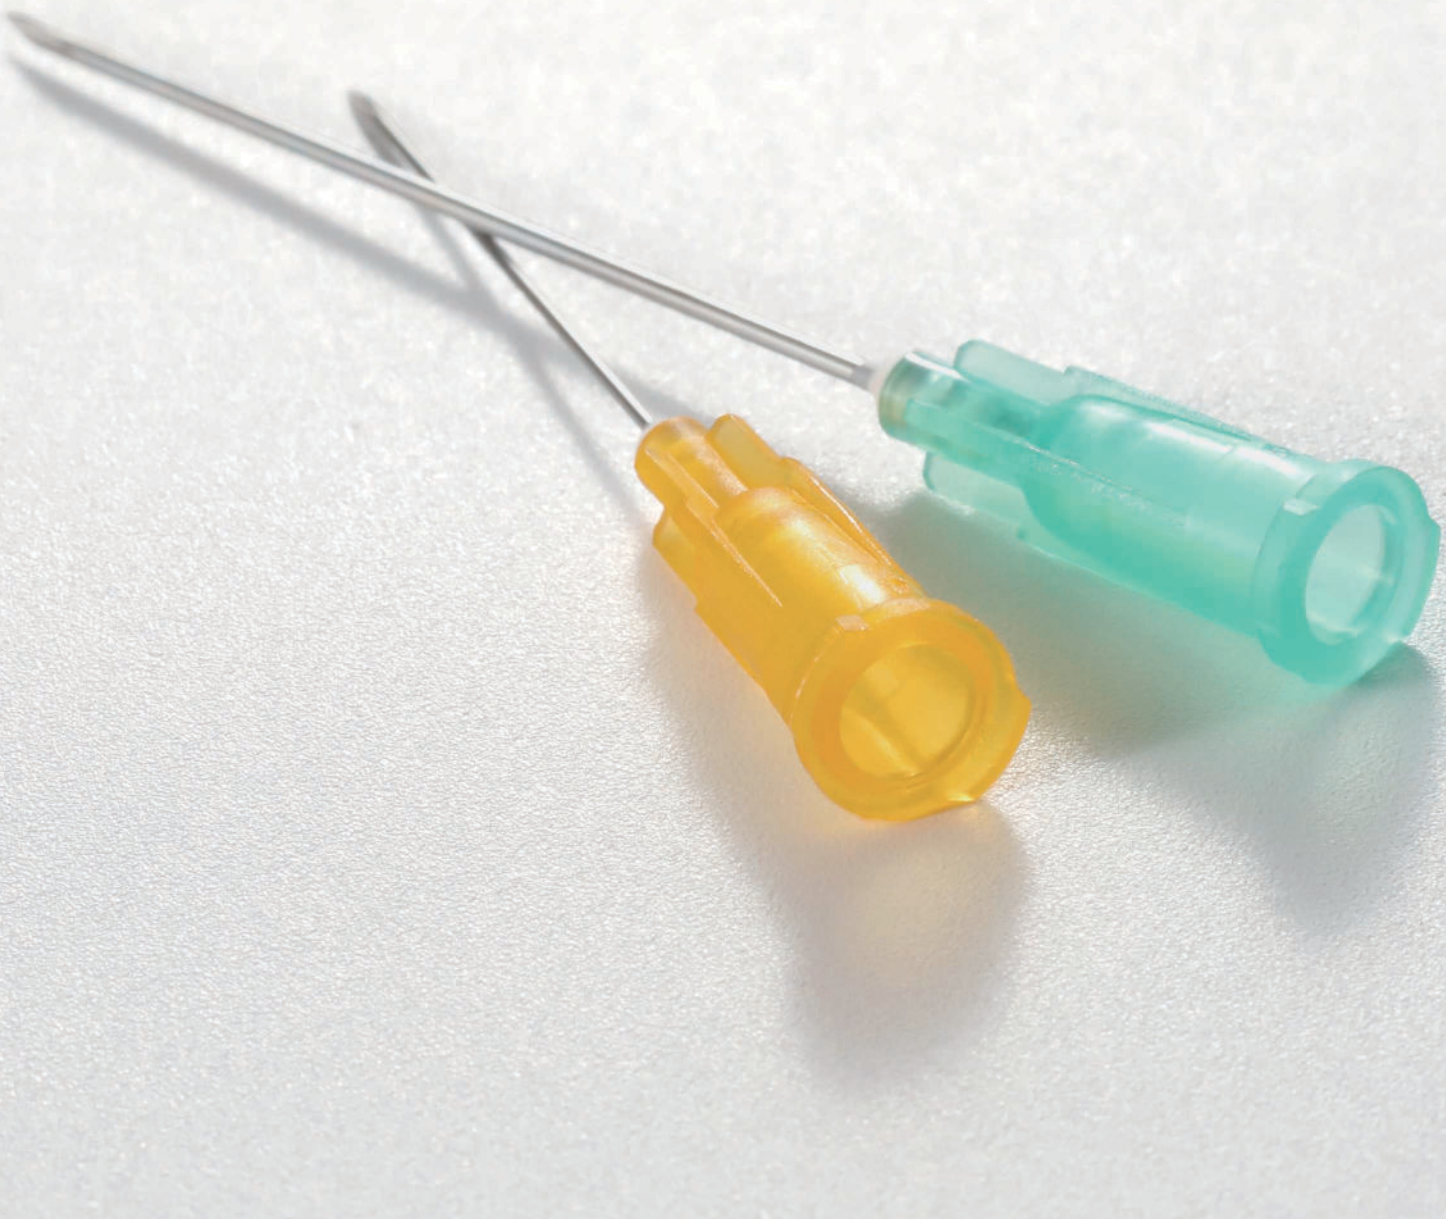

Gasket is latex or latex free .Product is based on ISO8537,type 8 syringe.

Available types:1ml with 23G,25G or 27G needles.

MEDOCAL CODE: MDC-INJ-0006-02

Hypodermic needle

MEDOCAL CODE: MDC-INJ-0007-02

Hypodermic needle:

Needle hub and protective cap are made of medical grade polypropylene.

Steel cannula is made of medical grade SUS304.

6% conical fitting produced according to international standards,

with accurate size,be compatible with medical devices.

Product is based on ISO7864 and ISO6009.

Available sizes:14G,15G,16G,18G,19G,20G,21G,22G,23G,24G,25G,26G,27G,29G,30G.

Oral feeding syringe

We are the oral syringe manufacturer.

Syringe body and cap are made of medical grade polypropylene.

Syringe hub is non 6% conical fitting,can not fit standard needles.

The universal adaptor is made of medical grade PVC.

This product is used for medicine oral dosing or adapt to medicine bottle.

Pyrogen-free,Toxic-free,DEHP free,BPA free.Sterilized by EO gas.

Primary packaging is compound bag.

Plunger and cap can be different color(blue,red,yellow,pink,purple,orange,green etc).

Available sizes: 1ml,3ml,5ml,10ml,20ml.

MEDOCAL CODE: MDC-EN-0001-02

Disposable Infusion Set

Disposable Infusion Set:

It is used for intravenous infusion of drug solution for patients.
The air intake type is suitable for infusion bottles and the non- air intake type is suitable for infusion bags.
Different components are available.

MEDOCAL CODE: MDC-INF-0001-02

Scalp Vein Set & Burette Set

Scalp Vein Set

6% conical fitting produced according to international standards, with accurate size, matching with medical devices.
Single wing or double wings.Available sizes:
21G,22G,23G,24G,25G,26G,27G

Burette Set

The product is suitable for pediatric infusion and occasions whereprecise monitoring of infusion dose is required.
Chamber size:
100ml,150mlDifferent components are available.

MEDOCAL CODES: MDC-INF-0002-02 | MDC-INF-0003-02

MEDOCAL FLUSH-SAFE

90311, 90315-90319

Pre-filled Saline Syringes

- **MEDOCAL FLUSH-SAFE** provides safety to the healthcare professionals by reducing the risk of needle stick injuries unlike conventional systems
- Avoids catheter damage as syringe diameter is inversely related to pressure generated at the distal end of syringe. Smaller diameter syringes generate greater amounts of pressure than larger diameter syringes and can risk catheter damage
- Gamma sterilized
- **Also available in Single sterile & Double sterile version**

90315	Pre-filled Syringe with 0.9% Sodium Chloride -10mL	Double Sterile*
90316	Pre-filled Syringe with 0.9% Sodium Chloride - 5mL	
90317	Pre-filled Syringe with 0.9% Sodium Chloride - 3mL	
90318	Pre-filled Syringe with 0.9% Sodium Chloride - 10mL	Single Sterile**
90319	Pre-filled Syringe with 0.9% Sodium Chloride - 5mL	
90311	Pre-filled Syringe with 0.9% Sodium Chloride - 3mL	

* Double Sterile - Sterile fluid path + Sterile syringe

** Single Sterile - Sterile fluid path

MEDOCAL SWAB-CLEAN New

90309

Disinfecting Cap

- Provides instant active and efficient disinfection
- Compatible with all needle free and luer access systems
- Eliminates inter-personal variation in compliance of 'scrub the hub' method of disinfection and saves nursing time
- Ergonomic design for smooth usage
- PVC Free, Latex Free, DEHP Free
- Gamma Sterile
- Available in Single pack & Multi pack
- **Options available :**
  - 70 % Isopropyl alcohol
  - 70 % Isopropyl alcohol + 2% chlorhexidine

Transfer Spike New

90314

- Fits into rubber stopper and bag set ports
- Allows easy flow even with non-evacuated glass vials
- Large internal diameter & grip flanges
- Provides secure connection between two containers
- Used for transfer of diluents into powdered medication without the need for repeated piercing of vials
- PVC Free, Latex Free, DEHP Free

MEDOCAL SPIKE-FLOW

13068, 13490-13496, 13550-13561

Vial Access Spike

With Snap-fit Cap

Product Code	Fluid Filter	Air Filter	Nature of Use
13491	5µ	0.1µ	Chemotherapeutic Drugs
13490	5µ	0.1µ	Normal Drugs
13068	NA	0.1µ	Normal Drugs

With Needle free connector

Product Code	Fluid Filter	Air Filter	Nature of Use
13494	5µm	0.1µm	Chemotherapeutic Drugs
13493	5µm	0.1µm	Normal Drugs
13492	NA	0.1µm	Normal Drugs

MEDOCAL SPIKE V+

New

13565-13569

Vial Access Spike with Integrated Valve

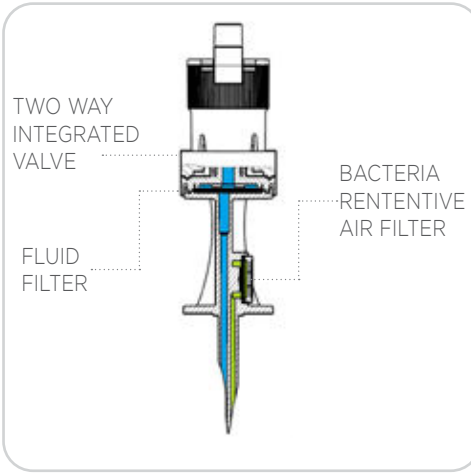

- Integrated valve prevents free flow when the system is turned upside down.

Product Code	Fluid Filter	Air Filter	Nature of Use
13565	5µm	0.2µm	Chemotherapeutic Drugs
13566	5µm	0.1µm	Normal Drugs
13567	5µm	0.45µm	Normal Drugs
13568	NA	0.1µm	Normal Drugs
13569	NA	0.45µm	Normal Drugs

Common Features :

- Vented spike for withdrawing fluids from vials or semi-rigid containers
- Uniform smooth bore permits maximum infusion flow
- Enhanced accurate drug administration practice with minimum priming volume
- Safety Snap Cap arrier against contamination
- Red color coded **MEDOCAL SPIKE-FLOW** is compatible with chemotherapeutic material used in intravenous drug therapy
- Bacteria retentive air filter neutralizes negative pressure developed in vial during withdrawal of drugs
- Female luer fitting provides leak proof connection
- Leak proof up to 1 bar
- Latex Free, PVC Free, DEHP Free

MEDOCAL CODES: MDC-INF-0009-04 | MDC-INF-0010-04

MEDOCAL IV-CLOSED

11782-11786, 11788, 11922-11927, 11930-11942, 11945-11951, 11954-11955, 11980-11986, 11988-11994

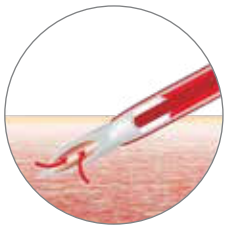

Safety Closed I.V. Catheter System

- Integrated system minimizes the risk of contamination & accidental disconnection
- Closed IV Catheter system supports multiple infusions
- Supports reduction of Hospital Acquired Infections and Needle Stick Injuries
- Advanced Polyurethane catheter material ensures better bio-compatibility & longer indwelling time
- Latex Free, PVC Free, DEHP Free
- Compatible with Power injectors upto 300 PSI
- Also suitable for sub-cutaneous infusion
- **Options available :** - Two Needle Free Connectors
  - Straight Port
  - Stop Cocks

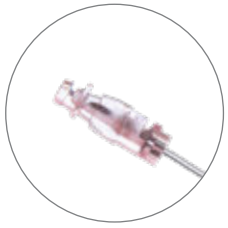

Needle free connector reduces the risk of catheter related bloodstream infections (CRBSI)

Quick Flashback Needle Technology ensures successful venipuncture

User friendly, Self Activating Safety Mechanism prevents needle stick injuries

Flexible perforated Soft wings

Advantages of Needle Free Connector in **MEDOCAL IV-CLOSED**

- Clear housing allows for visualization of the internal fluid path
- Effectively clears blood and blood residual with low flush volumes
- Minimal blood reflux in the catheter tip upon connection or disconnection with luer

11810-11819

MEDOCAL IV-SAFE BC

Safety I.V. Cannula with Blood Control

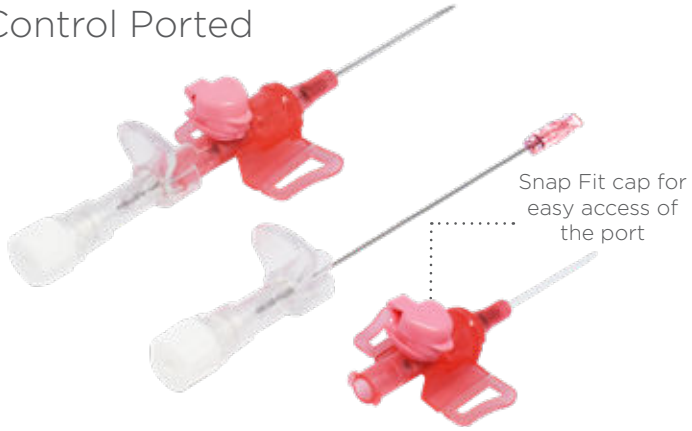

Silicon Septum prevents Blood spillage

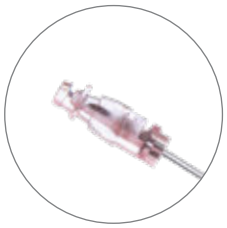

11850-11854

New

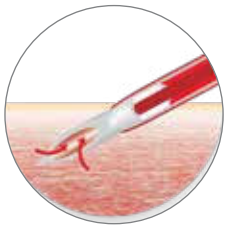

MEDOCAL IV-SAFE BC PORTED

Safety I.V. Cannula with Blood Control Ported

User friendly, Self Activating Safety Mechanism prevents needle stick injuries

Quick Flashback Needle Technology ensures successful venipuncture

Common Features

- Blood control IV cannula reduces the risk of blood exposure and contamination
- Helps to maintain a clean access site
- Passive safety mechanism automatically encapsulates sharp needle bevel, prevents accidental needle stick injuries
- Needle Safety Guard significantly reduces the risk of transmission of blood borne pathogens like HBV, HCV & HIV
- Advanced Polyurethane catheter material ensures better bio-compatibility & longer indwelling time
- Perforated wings provide ventilation & prevent skin maceration
- Reduces the risk of air in line when I.V. bottle runs dry
- Compatible with Power injectors upto 300 PSI
- Latex Free, PVC Free, DEHP Free

Size	Product Code Non-Ported	Product Code Ported	Catheter O.D.mm	Catheter Length(mm)	Flow Rate (ml/min)	Max. Power Inj. Flow Rate (ml/sec)

Arterial Blood Collection Syringe New

91328-91329

- Arterial Blood Collection syringe is used for blood collection by manual aspiration from arteries
- Arterial Blood Collection Syringes are Needle free and contain Calcium balanced Lithium Heparin coating for anti-coagulation on the inside wall of syringe
- Black Rubber Tip Cap protects from contamination.
- Gamma Sterile
- Product is made from bio-compatible and non-reactive materials with blood
- Latex Free, PVC Free, DEHP Free
- Sizes: 1ml & 3ml

Safety Introducer Needle New

- Suitable for insertion of Pheripherally Inserted Central Catheter (PICC) Line and Central Venous Catheters
- Needle Safety guard provided to reduce needle stick injuries
- Unqiuely designed Needle Safety guard prevents blood spillage
- Echogenic - Ultrasound guided clear needle tip visualization for safe and accurate needle placement
- Length: 40mm & 70mm
- Latex Free, PVC Free, DEHP Free
- Sizes: 18G & 21G (Echogenic)

MEDOCAL CODES: MDC-BC-0001-04 | MDC-VA-0004-04

MEDOCAL IV-SAFE ADVANCE

11440-11447, 11460-11468

Safety I.V. Cannula with Quick Flashback

- Unique Needle Safety Guard offers less friction during withdrawal of needle
- Encapsulation of the needle bevel minimizes the blood exposure
- Needle Safety Guard with smooth rounded surface
- Advanced Polyurethane catheter material ensures better bio-compatibility & longer indwelling time

Quick Flashback Needle Technology ensures successful venipuncture

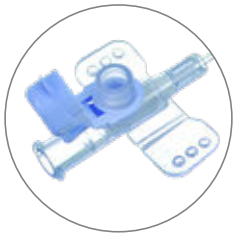

Special tapered bio-compatible Polyurethane catheter reduces the chances of phlebitis & thrombo-phlebitis

Flexible perforated wings for ventilation

User friendly, self activating safety mechanism prevents needle stick injuries

Needle Safety Guard

Snap Fit cap for easy access of the port

AdVa

12001-12428

I.V. Cannula for Quick Flashback Needle Technology

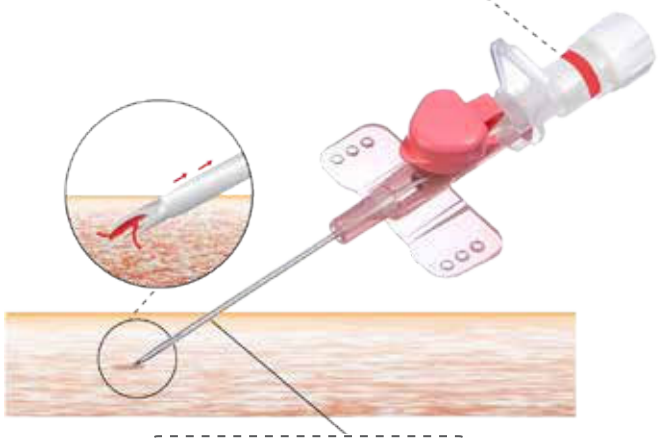

- Quick Flashback instantly confirms successful venipuncture
- AdVa Needle technology enhances success in first-prick of needle
- Instant confirmation of blood flow along catheter body increases clinician's ability to successfully access the vein

AdVa Needle Technology

Standard I.V. Cannula

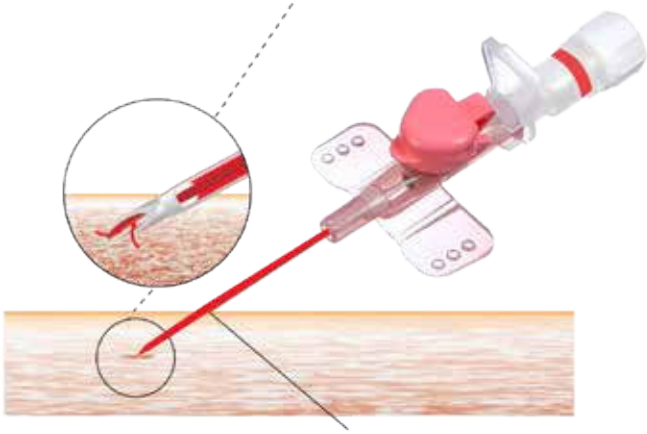

Visualization of flashback at the flashback chamber confirms venipuncture

Blood flows through the needle

Quick Flashback I.V. Cannula

Observe quick flashback through AdVa needle

Quick visualization of blood flow through adva needle along with catheter body confirms successful venipuncture

Art-Can Safety

13424-13425, 13428-13429

Safety Arterial Cannula

- Suitable for arterial pressure monitoring and arterial blood gas determinations
- Sharp atraumatic needle bevel helps the procedure with minimal patient discomfort
- Specially designed ON-OFF switch prevents backflow and exposure of blood to healthcare professional
- Needle safety guard automatically covers the needle's sharp bevel after withdrawal of needle from the hub, minimizing the risk of Needle Stick Injury
- Sizes: 20G & 22 G
- **Available with FEP/PUR catheter material**

On / OFF Switch

Needle Safety Guard

Art-Can Standard

13426-13427, 13430-13431

Standard Arterial Cannula

- Suitable for arterial pressure monitoring and arterial blood gas determinations
- Sharp atraumatic needle bevel helps the procedure with minimal patient discomfort
- Specially designed ON-OFF switch prevents backflow and exposure of blood to healthcare professional
- Sizes: 20G & 22 G
- **Also available with FEP/PUR catheter material**

On / OFF Switch

MEDOCAL MIDLINE-OTN

13440-13531

Mini Mid Lines - Over the Needle

- Mini-Mid line kit Over-the-needle is suitable for “dificult insertion vascular access”
- Soft flexible Kink resistant straight Nitinol Guide wire for conversion into a over-the wire
- Made of bio-compatible radio opaque Polyurethane material providing strength during insertion
- Specially designed soft tip for smooth & easy insertion of catheter
- Needle free connector provides closed system

Size		Catheter I.D.mm	Flow Rate (ml/min) 60	70	80
14G	Orange	2.0	295	290	285

17G	White	1.5	125	120	115
18G	Green	1.3	80	75	70

Compatible with Power injectors upto 300 PSI

MEDOCAL MIDLINE-OTW

13535-13539, 13580-13586

Mini Mid Lines - Over the Wire

- Radio-opaque PUR catheter with fixation wings: To be used with Seldinger technique by introducer needle and straight guidewire

Kit Consists of :

- Mini Mid Line Catheter
- Introducer Needle
- Nitinol Guidewire Straight Point (OD 0.018)
- Securement Device
- Wound IV Dressing
- Drape
- Needle Free Connector

Compatible with Power injectors upto 300 PSI

MEDOCAL CONNECT-SAFE

13320-13337, 13361-13362

Needle free connectors

- Needle free connector reduces risk of Catheter Related Blood Stream Infections (CRBSI)
- Needle free technology reduces the risk of bacterial contamination
- Suitable for all peripheral, arterial and central venous catheters for the administration of I.V. fluids or medication
- Flat smooth swabable surface for ease of disinfection
- DEHP Free extention tubing
- Latex Free

Also available as

MEDOCAL FLOW-3

13001-13009

Three Way Stop Cock

- For multiple infusions
- 360⁰ rotation
- Rotating male luer and two female luer connectors

13001-13003

13004-13006

13007-13009

13023-13025, 13505-13506

MEDOCAL FLOW-3 PRO

Three Way Stop Cock
Lipid resistant

- For multiple infusions
- 360⁰ rotation
- For pressure up to 5.5 bar

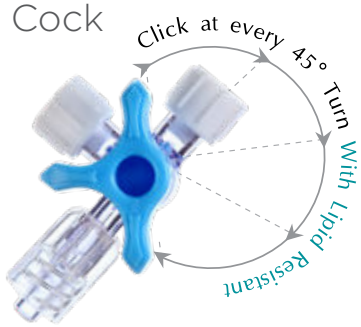

13040-13045, 13050-13611, 13230-13060, 13070-13075

13026, 13058, 13600

MEDOCAL FLOW-3 CLICK

Three Way Stop Cock
Lipid resistant
with 45⁰ Click

MEDOCAL FLOW-3 WITH EXTENSION TUBE

Three Way Stop Cock with Extension Tube

uninterrupted fluid movement

- Tube length : 7, 10, 15, 20, 25, 30, 50, 80, 100, 150 & 200 cm
- Tube dia : I (Ø 3 mm) & O (Ø 4.1 mm)
- **Available with rotating Luer Lock**

Common features

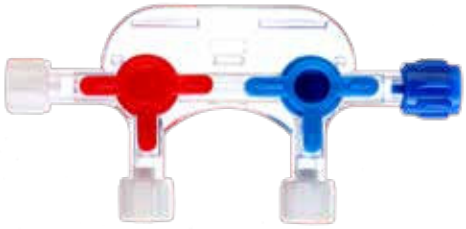

- Crystal clear transparent channel
- Minimum priming volume required for accurate drug administration
- Rotating male luer and two female luer connectors
- Arrow indication on the handle to indicate the direction of flow
- Connection meets 6% taper requirement to ensure leakage free fitment

MEDOCAL CODES: MDC-INF-0006-04 | MDC-INF-0012-04

Manifolds

13711-13715, 13721-13725, 13727-13751

- Suitable for intervention radiology and cardiology procedures
- Used as delivery device for I.V. fluids to the patient's vascular system
- Available with 2, 3, 4, 5 & 6 way channels
- Minimal residual & priming volume
- Lipid resistant
- **Also available with Needle free connectors & Extension line**

2 Ways

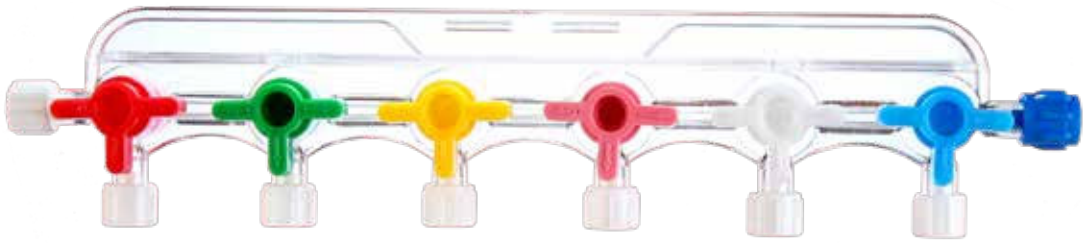

3 Ways

4 Ways

Safety Winged Infusion Set

13400-13409

- Safety winged infusion set with short, atraumatic sharp needle
- Safety needle shield minimizes the risk of needle stick injuries
- Color coded flexible wings
- Sizes : 18G to 27G
- **Also available with luer adapter for safe blood collection**

Needle Safety Shield

13134, 13265

T-Type Extension Set

- Extension Tube T-Type
- Tube Length : 15 cm
- **Also available with Luer lock & Luer slip**

13080-13085

Obturator

Stylet / Mandarin with Luer Lock

- Used in conjunction with I.V. Cannula for its long term closure
- Color coded for easy identification of sizes
- Sizes : 14 G to 22 G

14260-14269, 14289, 14291-14292

MEDOCAL INFUSION-AUTO

I.V. Infusion Set Double Chamber
with Auto Air Stop & Priming Filter

Auto Air
Stop Filter

- Specially designed Auto Air Stop filter prevents the entry of air in the line when the I.V. bottle is empty
- Auto Air Stop filter maintains a constant fluid level and reduces the possibility of air in the I.V. Line

Priming
Filter

- The special Priming Filter ensures that the line fills automatically (Auto Prime) thus maintains a closed system
- Reduces spillage and wastage of I.V. fluid

14296, 14263, 14290, 14293-14294

MEDOCAL INFUSION-AUTO

I.V. Infusion Set with soft chamber
Auto Air Stop & Priming Filter

Features and Benefits

- Clear spike compatible with I.V. bottles
- Unique designed ring in drip chamber for secure griping (only for **MEDOCAL INFUSION-AUTO**
- Flexible drip chamber for easy and fast priming (Drop rate 20 drops/mL)
- DEHP free reduces phthalate related toxicity thus ensures Patient Safety
- Suitable for Gravity feed as well as Pressure Infusions up to 2 bars
- Standard tube length: 180 cms
- Latex Free
- **Also available with "Y" injection port (latex free), Back check valve, Needle free Y-site & Stop cock**

MEDOCAL CODE: MDC-INF-0001-04

14270-14272

MEDOCAL INFUSION-ULTRA

I.V. Infusion Set with Three Way Stop Cock & Priming Filter

Priming Filter

- Hydrophobic priming filter cap prevents fluid leakage
- Long drip chamber to facilitate easy drop count
- Lipid resistant three way stop cock provided for multiple infusions
- Suitable for pressure & gravity infusions
- Latex Free
- DEHP Free

14024, 14138, 14158, 14174

MEDOCAL INFUSION-BCV

I.V. Infusion Set with Airvent & Back Check Valve

Back Check Valve

- Sharp air vented spike with Bacteria retention air inlet with snap cap
- "Y" injection port (latex free) designed for multiple injections
- Back Check Valve to prevent back flow
- Latex Free
- DEHP Free

Common Features

- Transparent & flexible drip chamber
- 15 micron fluid filter in drip chamber
- Soft and kink resistant DEHP free PVC tubing
- Smooth roller clamp facilitates easy, safe control and adjustment of fluid rates
- Standard tube length : 150 cms
- Tube dia : I Ø 3 mm & O Ø 4.1 mm

14160-14164

MEDOCAL INFUSION-ONCO

I.V. Infusion Set with 0.2 Micron in-line Filter

Priming Filter

I.V. Infusion Set with 0.2 Micron in-line Filter

- I.V. Infusion set with 0.2 micron in-line filter prevents particle, air, bacteria & fungi passing into the venous system
- Hydrophobic priming filter cap prevents fluid wastage
- Latex free
- PVC free

14230, 14235

MEDOCAL INFUSION-PHOTO

I.V. Infusion Set for Photosensitive Drugs

Priming Filter

- Protects light sensitive drugs from UV exposure
- UV resistant tubing minimizes photo degradation of the active ingredients of various drugs
- Hydrophobic priming filter cap to prevent fluid wastage
- Latex free
- DEHP free

Luer Lock

Rotating Luer Lock

Needle Free Y-Site

Also available with

- Rotating luer lock
- With or without needle
- “Y” injection port (latex free)
- Designed for intermittent medications
- Needle free Y-site

MEDOCAL CODE: MDC-INF-0001-04

13150-13166

MEDOCAL FLOW-NOVO

I.V. Flow Regulator Extension Sets

Needle Free Y-Site

Also available with Dual Scale

- Precise flow rate control of I.V. fluids with range of 5 to 250 ml/hr
- With “Y” injection port for intermittent medication
- Also available with thumb support “Y” injection port and Needle Free “Y” site
- Standard tube length : 20 cm without “Y” site & 40 cm with “Y” site
- Latex Free
- DEHP Free

14280-14282

MEDOCAL MICRO-SET

I.V. Infusion Set with Micro Drip & Flow Regulator

Needle Free Y-Site

- Flow regulator integrated into I.V. infusion set for precise flow control
- Flow rate 5ml/hr to 250ml/hr
- Approximately 60 drops/ml
- Also available with standard drip chamber (20 drops/ml)
- Latex Free
- DEHP Free

Common Features

- For gravity feed only
- 15 micron fluid filter in drip chamber
- Soft and kink resistant DEHP free PVC tubing ensures uniform flow rate
- Smooth roller clamp facilitates easy, safe control and adjustment of fluid rates
- Standard tube length: 150 cms
- Tube dia : I Ø 3 mm & O Ø 4.1 mm

14120-14154

MEDOCAL INFUSION-NOVO

I.V. Infusion Set with Airvent

Common Features

- Sharp air vented spike
- Bacteria retention air inlet with snap on cap
- "Y" injection port (latex free) designed for multiple injections
- Suitable for pressure & gravity infusions
- Latex free
- DEHP free

Also available:

- Rotating luer lock
- Needle free Y-site

14120-14154

MEDOCAL INFUSION-MICRO

I.V. Infusion Set with Micro Drip

Micro dipper

- Micro I.V. Infusion set for paediatric use
- Approximately 60 drops/ml

Luer Lock

Rotating Luer Lock

Needle Free Y-Site

14120-14154

MEDOCAL INFUSION-SAFE

I.V. Infusion Set with Winged Spike

- Sharp and Winged spike for easy insertion
- Approximately 20 drops/ml

Features

- Transparent & flexible drip chamber
- 15 micron fluid filter in drip chamber
- Soft and kink resistant PVC tubing
- Smooth roller clamp facilitates easy & controlled adjustment of fluid rates
- Standard tube length : 150 cms
- "Y" injection port designed for intermittent medications
- Tube dia : I Ø 3 mm & O Ø 4.1 mm
- DEHP free, Latex free

95001-95008

Safety Huber Needle New

- Compatible with Chemotherapeutic ports
- Non-Coring Needle maximizes port septum life
- Safety mechanism for protection from Needle stick injuries
- PVC Free & Power Injectable Extension Tubing
- Soft wings for ease of dressing and handling
- Clamp to stop infusion as required
- Optional Needle Free Y-Site for intermediate medication
- Sizes: 19G, 20G, 22G
- Ext. Tube Length : 190mm
- Needle Length : 15mm, 20mm, 25mm, 32mm, 38mm

Also available in 19G 20G 22G

MEDOCAL CODES: MDC-INF-0001-04 | MDC-VA-0013-04

MEDOCAL VOLU-SET

14500-14543

Measured Volume Fluid Administration Set (Burette Set)

- Transparent, cylindrical & calibrated measured volume chamber with bold scale
- Bacteria retentive air inlet on spike
- Automatic shut off valve prevents entry of air once the burette chamber gets emptied
- Automatic shut off valve also indicates the level of fluid
- Micro drip with 60 drops per ml
- 15 micron fluid filter in the drip chamber
- Soft and kink resistant PVC tubing
- Tube dia : I Ø 3 mm & O Ø 4.1 mm
- Sizes : 100 ml, 110 ml & 150 ml
- Standard Tube length : 150 cm
- DEHP free
- Latex free

Options Available:

- Luer lock or Rotating luer lock
- "Y" injection port (latex free)

Luer Lock

Rotating Luer Lock

Needle Free Y-Site

Latex Free Y-Site

MEDOCAL CODE: MDC-INF-0017-04

Extension Lines

13119-13124, 13149-13481

High Pressure Extension Line

- Suitable for high pressure monitoring
- Kink resistant PVC tubing
- For pressure up to 55 bar (800 psi)
- Priming volume : 0.8 ml/meter
- Tube dia : I Ø 1.0 mm & O Ø 3.0 mm
- Tube Length : 20, 25, 50, 60, 100, 150, 200, 300
- DEHP free

13180-13202

Low Pressure Extension Line

- Extension line suitable for low pressure applications
- Kink resistant PVC tubing
- For pressure up to 4.5 bar (65 psi)
- Priming volume : 6.46 ml/meter
- Tube dia : I Ø 3.0 mm & O Ø 4.1 mm
- Tube Length : 25, 50, 100, 150 & 200
- DEHP free

13240-13244, 13249, 13331-13333

PVC Free High Pressure Extension Line (Straight)

- Kink resistant PE tubing
